Emotion and Virtue Gopal Sreenivasan, 2020-11-24 A novel approach to the crucial role emotion plays in virtuous action What must a person be like to possess a virtue in full measure What sort of psychological constitution does one need to be an exemplar of compassion say or of courage Focusing on these two examples Emotion and Virtue ingeniously argues that certain emotion traits play an indispensable role in virtue With exemplars of compassion for instance this role is played by a modified sympathy trait which is central to enabling these exemplars to be reliably correct judges of the compassionate thing to do in various practical situations Indeed according to Gopal Sreenivasan

the virtue of compassion is in a sense a modified sympathy trait just as courage is a modified fear trait While he upholds the traditional definition of virtue as a species of character trait Sreenivasan discards other traditional precepts For example he rejects the unity of the virtues and raises new questions about when virtue should be taught Unlike orthodox virtue ethics moreover his account does not aspire to rival consequentialism and deontology Instead Sreenivasan repudiates the ambitions of virtue imperialism Emotion and Virtue makes significant contributions to moral psychology and the theory of virtue alike
