Property of Nations Laura R. Ford, 2021-05-20 Drawing on macro historical sociological theories this book traces the development of intellectual property as a new type of legal property in the modern nation state system In its current form intellectual property is considered part of an infrastructure of state power that incentivizes innovation creativity and scientific development all engines of economic growth To show how this infrastructure of power emerged Laura Ford follows macro historical social theorists including Michael Mann and Max Weber back to antiquity revealing that legal instruments very similar to modern intellectual property have existed for a long time and have also been deployed for similar purposes Using comparative and historical evidence this groundbreaking work reflects on the role of intellectual property in our contemporary political communities and societies on the close relationship between law and religion and on the extent to which law's obliging force depends on ancient written traditions **Comparative Human Rights Law** Sandra

Fredman, 2018-11-08 Courts in different jurisdictions face similar human rights questions Does the death penalty breach human rights Does freedom of speech include racist speech Is there a right to health This book uses the prism of comparative law to examine the fascinating ways in which these difficult questions are decided On the one hand the shared language of human rights suggests that there should be similar solutions to comparable problems On the other hand there are important differences Constitutional texts are worded differently courts have differing relationships with the legislature and there are divergences in socio economic development politics and history Nevertheless there is a growing transnational conversation between courts with cases in one jurisdiction being cited in others Part I sets out the cross cutting themes which shape the ways judges respond to challenging human rights issues It examines when it is legitimate to refer to foreign materials how universality and cultural relativity are balanced in human rights law the appropriate role of courts in adjudicating human rights in a democracy and the principles judges use to interpret human rights texts The book is unusual in transcending the distinction between socio economic rights and civil and political rights Part II applies these cross cutting themes to comparing human rights law in the US UK South Africa Canada and India Its focus is on seven particularly challenging issues

the death penalty abortion housing health speech education and religion with the aim of inspiring further comparative examination of other pressing human rights issues

Digital Platforms, Imperialism and Political Culture Dal Yong Jin, 2015-03-24 In the networked twenty first century digital platforms have significantly influenced capital accumulation and digital culture Platforms such as social network sites e g Facebook search engines e g Google and smartphones e g iPhone are increasingly crucial because they function as major digital media intermediaries Emerging companies in non Western countries have created unique platforms controlling their own national markets and competing with Western based platform empires in the global markets The reality though is that only a handful of Western countries primarily the U S have dominated the global platform markets resulting in capital accumulation in the hands of a few mega platform owners This book contributes to the platform imperialism discourse by mapping out several core areas of platform imperialism such as intellectual property the global digital divide and free labor focusing on the role of the nation state alongside transnational capital
