Ladd,2020-10-06 In The Experiential Therapist Phenomenology Trauma Informed Care and Mental Health Peter D Ladd steps outside of the medical model to explore alternative ways of thinking about mental health disorders Through case studies and analyses of current methods and research Ladd stresses the importance of incorporating trauma informed care phenomenological insights and empowerment methods in daily practice By analyzing issues such as collaboration wisdom momentum dialogue and necessary suffering Ladd highlights the importance of engaging with a patient s mental health experience and its impact on her family and argues that successful treatment results from an informed understanding of a patient s experience not an ability to name and categorize difficult experiences as classical disorders On Trails Robert Moor,2016-07-12 New York Times Bestseller Winner of the National Outdoor Book Award Winner of the Saroyan International Prize for Writing Winner of the Pacific Northwest Book Award The best outdoors book of the year Sierra Club From a talent who s been compared to Annie Dillard Edward Abbey David Quammen and Jared Diamond On Trails is a wondrous exploration of how trails help us understand the world from invisible ant trails to hiking paths that span continents from interstate highways to the Internet While thru hiking the Appalachian Trail Robert Moor began to wonder about the

paths that lie beneath our feet How do they form Why do some improve over time while others fade What makes us follow or strike off on our own Over the course of seven years Moor traveled the globe exploring trails of all kinds from the miniscule to the massive He learned the tricks of master trail builders hunted down long lost Cherokee trails and traced the origins of our road networks and the Internet In each chapter Moor interweaves his adventures with findings from science history philosophy and nature writing Throughout Moor reveals how this single topic the oft overlooked trail sheds new light on a wealth of age old questions How does order emerge out of chaos How did animals first crawl forth from the seas and spread across continents How has humanity s relationship with nature and technology shaped world around us And ultimately how does each of us pick a path through life Moor has the essayist s gift for making new connections the adventurer s love for paths untaken and the philosopher s knack for asking big questions With a breathtaking arc that spans from the dawn of animal life to the digital era On Trails is a book that makes us see our world our history our species and our ways of life anew
