Das Habsburgische Urbar Walther Glättli,1899 **“Das” habsburgische Urbar** W. Glättli,1899 **Quellen zur Schweizer Geschichte** ,1899 **The Dark Social** Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to be belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their

subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism

Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that

form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory Designing for Democracy provides blueprints for democracy in a digital age

Engaging the Gadfly Casey T. Sigmon, 2025-06-09 In 2020 most preachers and congregations were forced into online and hybrid preaching We had to react quickly For some this adventure opened creative forms of preaching stitches duets reels and VR For others it was a season of just getting by cell phones propped up on books laptops on dining room tables We did what we could to proclaim the good news in turbulent times Five years later Sigmon invites preachers and congregations to reflect on those experiences as they consider the future of preaching She helps the reader engage the Gadfly whose buzzing signals a shift in how we understand relationships truth presence and place in this digital age Sociologists and historians argue that we are now on the brink of a shift in communication as transformative as the invention of the printing press No wonder ministry is so challenging right now Ultimately this digital age like previous ages of technological change presents problems and possibilities to the practice of preaching and so ecclesiologically the shape of the church What shapes will emerge Sigmon will empower preachers and congregations to answer that question for themselves through a new media

homilecclesiology **The World Made Meme** Ryan M. Milner, 2018-04-13 How memetic media aggregate texts that are collectively created circulated and transformed become a part of public conversations that shape broader cultural debates Internet memes digital snippets that can make a joke make a point or make a connection are now a lingua franca of online life They are collectively created circulated and transformed by countless users across vast networks Most of us have seen the cat playing the piano Kanye interrupting Kanye interrupting the cat playing the piano In *The World Made Meme* Ryan Milner argues that memes and the memetic process are shaping public conversation It s hard to imagine a major pop cultural or political moment that doesn t generate a constellation of memetic texts Memetic media Milner writes offer participation by reappropriation balancing the familiar and the foreign as new iterations intertwine with established ideas New commentary is crafted by the mediated circulation and transformation of old ideas Through memetic media small strands weave together big conversations Milner considers the formal and social dimensions of memetic media and outlines five basic logics that structure them multimodality reappropriation resonance collectivism and spread He examines how memetic media both empower and exclude during public conversations exploring the potential for public voice despite everyday antagonisms Milner argues that memetic media enable the participation of many voices even in the midst of persistent inequality This new kind of participatory conversation he contends complicates the traditional culture industries When age old gatekeepers intertwine with new ways of sharing information the relationship between collective participation and individual expression becomes ambivalent For better or worse and Milner offers examples of both memetic media have changed the nature of public conversations
