 Born in a time of anxiety Words and Worlds examines some of the disquieting challenges that societies now face Through an
 inquiry into a political lexicon of commonsense words ranging from democracy and revolution to knowledge and authority
 from inequality and toleration to war and power the contributors to this book trouble the self evidence of these terms
 bringing into view the hidden transcripts and unexpected trajectories of many settled ideas such as the human sense of
 belonging or the call for openness and transparency in research and public life The case studies conducted over five
 continents with the tools of eight different disciplines challenge the ethnocentric assumptions false moralism and cultural
 prejudices that underlie much discussion on corruption or even the virtue invested in resilience The critique of the ubiquitous
 use of crisis to characterize our times shows how this framing obscures the unjust conditions of existence and the violence of
 everyday life Together the essays in this volume offer a fresh look at the deeply connected worlds we inhabit in solidarity and
 in discord Contributors Banu Bargu Veena Das Alex de Waal Didier Fassin Peter Geschiere Behrooz Ghamari Tabrizi Caroline
