The Jubak Picks Jim Jubak, 2008-12-30 The Investing Strategy for All Seasons The Jubak Picks enables you to play great offense and great defense to make money in the stock market in good times to protect yourself during downturns and to reap the biggest profits when the good times return In good times Jubak s strategy beats the market delivering an amazing return of 360 percent over an eleven year period Compare that to the S P 500 Stock Index return of 68 percent and we are talking about real money in your pocket But times aren t always good and no investor can make money all the time When stocks plunge during a grinding bear market you need a strategy for playing great defense that preserves capital so you can pounce when good buying opportunities present themselves And best of all Jubak s strategy tells what ten trends and fifty stocks will make you the most money when the market rebounds Jim Jubak s top down stock picking method is based on being in the right asset at the right time ensuring that your portfolio is composed of stocks with the wind at their back and that are trending upward He shows how to find the best stocks by first understanding ten macro trends changing the world including The economies Brazil Russia Vietnam India China and the rest of the gang driving global demand The return of inflation and the end of the thirty year era of low prices The rising tide of retirement money in an older and wealthier world and the crucial need for companies that can properly manage it The commodities crunch in a world ever more hungry for natural resources The end of cheap oil Food as the new oil The decline in global financial stability and the increasing value of safe investing havens The world finally getting serious about the environment and global warming Why heed Jim Jubak and his method Start with the record Returns that have beaten all major indices by a significant factor for more than a decade and in bad times such as the bear market of 2007 2008 losses that are just one third those of the major indices Factor in transparency Unlike those who tell you the hot stocks for today but conveniently forget them tomorrow the decade long record triumphs warts and lessons is on MSNmoney com Jubak s Journal Add in continual updates Jubak will provide continual updates on MSNmoney com of his fifty picks providing a real time assessment of stocks that are keepers and those that should be sold From the Hardcover edition

I Series Stephen Haag, James T. Perry, Amy Phillips, 2002 The I Series Applications textbooks strongly emphasize that students learn and master applications skills by being actively engaged by doing These texts have been written with clear error free and unambiguous steps to accomplish tasks that lead to a finished document worksheet or database table The authors made the decision that teaching how to accomplish some task is not enough for complete understanding and mastery Prior to introducing steps the authors discuss why the steps students are about to experience are important and what role the steps play in the overall plan for creating a document workbook or database
