The Oxford Handbook of Screen Comedy Peter C. Kunze,Assistant Professor of Communication Peter C Kunze,Distinguished Teaching Professor of English and Film William V Costanzo,William V. Costanzo,2025 The Oxford Handbook of Screen Comedy offers a rich sampling of the most current research and evolving trends in a vast and growing field the study of humor and comedy in movies television streaming content social media and other forms of mediated comedy The thirty new essays in this volume written by leading scholars and emerging researchers are guideposts to where the field is now and where it is heading By its very nature comedy eludes definition and crosses boundaries Trying to grab the wriggling creature and subject it to analysis presents special challenges The contributors featured in this volume apply a range of methods to analyse case histories interpret trends and theorize the changing face of comedy Some celebrate the diverse pleasures of laughter some critique its more nefarious practices and warn of salient dangers Together they bring insights from feminist black and queer studies focus on issues of identity and ideology extend and revise notions of historical development and follow the emergence and migration of comic forms in Latin America China North Korea and South Africa The broad aim of this book is to increase awareness of these exciting studies and inspire more productive exploration as the field continues to

grow **Connective Action and the Rise of the Far-Right** Steven Livingston, Michael Miller, 2025-05-30 This is an open access title available under the terms of a CC BY NC ND 4.0 International license It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations In *Connective Action and the Rise of the Far Right* Platforms Politics and the Crisis of Democracy the contributors explain democratic backsliding in the 21st century through what it terms a cross disciplinary engagement between democracy scholars and data scientists The former describe the necessary social and economic conditions for a healthy democracy while the latter tell us something about the role of digital platforms in the realization or not of these same conditions In turn volume editors Steven Livingston and Michael Miller bring these two broad research traditions together to define a new analytical framework for understanding the potential demise of contemporary democracy The chapters argue that the current threat to democracy comes from the organization of illiberal movements both on and offline Put differently democratic backsliding is the consequence of far right connective action In this process digital surrogate organizations or networks mix with more conventional organizations aligned with conservative parties themselves facing a uniquely precarious position in today's democracies Democracy scholars or what the editors of this book call institutionalists emphasize the critical role of economics elites and organized interests and look outward into society when searching for an explanation of backsliding The technocentric model of democratic backsliding looks to digital networks and their effects on individual level cognitive processes To date despite their shared intellectual focus on democracy there has been little overlap between these two fields of study The chapters in the book collectively assess the effects of digitized public communication on democracy without losing sight of social and economic power structures
