Too Good to Be True Kristen Ashley, 2023-10-31 Heiress Daphne Ryan is uncertain about spending a week at the sprawling country estate of the family of her sister's boyfriend. For starters, she doesn't get along with her sister. Then there's the fact his family is old wealthy aristocracy and Daphne's from brash new American money. Mostly it's that everyone knows Duncroft House is haunted by the ghost of a 1920s film star who died there. Deemed an accident for nearly a century, people are sure it was murder. Daphne doesn't like scary things, say haunted houses. She likes it less when strange things start happening to her when she arrives. But she finds she has a surprising ally. Ian Alcott, the heir to the earldom, is rich, gorgeous, and just as concerned about the frightening things that keep befalling Daphne at his ancestral family home. As he moves to protect her, Daphne finds he's also funny, kind, and sexy as hell. Indeed, he just might be too good to be true.

The Mother of All Booklists William Patrick Martin, 2014-12-24 The Mother of All Booklists: The 500 Most Recommended Nonfiction Reads for Ages 3 to 103 is written for parents, grandparents, and teachers unfamiliar with the bewildering array of award and recommended reading lists. This book is a long overdue composite of all the major booklists. It brings together over 100 of the most influential book awards and reading lists from leading magazines, newspapers, reference books, schools, libraries, parenting organizations, and professional groups from across the country. The Mother of All Booklists is to reading books what the website Rotten Tomatoes is to watching movies: the ultimate one-stop synthesizing resource for finding out what is best. Mother is not the opinion of one book critic but the aggregate opinion of an army of critics. Organized into five age group lists, each with one hundred books: preschoolers (ages 3-5), early readers (ages 5-9), middle readers (ages 9-13), young adults (ages 13-17), and adults (ages 18+). The Mother of All Booklists amalgamates the knowledge of the best English language booklists in the United States, including a few from Canada and Great Britain. Each of the 500 books is annotated, describing the contents of the book and suggesting why the book is unique and important. Each includes a picture of the book cover.

Online Searching Karen Markey, 2023-02-07 Online Searching prepares students in library and information science programs to assist information seekers at all levels, from university faculty to elementary school students. Included in the third edition are interviews with librarians and other information professionals whose words of wisdom broaden graduate students' perspectives regarding online searching in a variety of work settings serving different kinds of information seekers. The book's chapters are organized according to the steps in the search process: 1. Conducting a reference interview to determine what the seeker wants; 2. Identifying sources that are likely to produce relevant information for the seeker's query; 3. Determining whether the user seeks a known item or information about a subject; 4. Dividing the query into main ideas and combining them logically; 5. Representing the query as input to the search system; 6. Conducting the search and responding strategically; 7. Displaying retrievals, assessing them, and responding tactically. A new chapter on web search engines builds on students

existing experience with keyword searching and relevance ranking by introducing them to more sophisticated techniques to use in the search box and on the results page A completely revised chapter on assessing research impact discusses the widespread use of author and article iMetrics a trend that has developed rapidly since the publication of the second edition More than 100 figures and tables provide readers with visualizations of concepts and examples of real searches and actual results Textboxes offer additional topical details and professional insights New videos supplement the text by delving more deeply into topics such as database types information organization specialized search techniques results filtering and the role of browsing in the information seeking process An updated glossary makes it easy to find definitions of terms used throughout the book With new and updated material this edition of Online Searching gives students knowledge and skills for success when intermediating between information seekers and the sources they need
