After the Snap Cadence Keys, 2024-02-08 I finally get the nerve to tell my best friend I'm in love with him and he has the audacity to ask me to be his fake girlfriend Alayna I've been secretly in love with my best friend Dom for years but after his latest scandal I can't do it anymore I can't keep letting him take advantage of our friendship or breaking my heart every time I have to watch him hook up with some model or actress or insert any woman who's not me here I'm done But Dom's stubborn and when I try to end our friendship he won't hear it until I confess the secret I've held onto for dear life Instead of responding like I expect him to he has the nerve to try to convince me to be his fake girlfriend for a PR stunt to clean up his image Seriously Dominic When I come over to my best friend's house to convince her to be my fake girlfriend the last thing I expect is for her to tell me she's in love with me I may act fast on the football field but when it comes to my personal life I'm a guy who needs time to process But I know one thing with certainty I can't lose Laney When I'm forced to face the feelings I've ignored for years I start seeing all the ways I've let her down and worse made her feel like she's not the most important person in my world I have six months to convince her to not give up on me Six months to show her I'm not going to keep letting her down anymore Six months to prove to her I love her as much as she loves me Because losing her would be cutting my own heart out and that's not an option

Kameron I was never happier than the day my mother and grandmother agreed that I could leave the great state of Texas to attend a college nearly two thousand blissful miles away from home. They only agreed because 1 Delta is the top sorority at Lincoln University, therefore I could and would become the third generation of Hunt women to hold the office of Delta President. 2 Brad Kosta, my uncle, was the coach of the Lincoln Lions Ice Hockey team, and he could look after me. I also had a secret obligation to fulfill to myself: I was going to pursue my passion, photography, and find a man to give myself to who my brothers couldn't intimidate. A man who wouldn't turn college into a cautionary tale of heartbreak and self-loathing, but instead a fond memory. A man who wasn't a player, an F-boy, or some stupid jock. The thing is, the only guy I've met on a campus who's held my interest is, in fact, a jock. Not just any jock, he's one of Uncle Brad's top players. Evan Senior year's focus should be all about securing my spot with the Brooklyn Bears. Should be skating easy, I should be, but I'm not. I'm about to make an enemy out of the one person I should be bowing to: Coach Kosta. Not my fault, he hired a smoke show to be our team photographer. One with hella curves, southern charm, and impeccable taste in men, me. One who confessed she'd never given herself to anyone but trusted that I'm the right man for the job. They say sticks over chicks, but whoever coined that phrase had obviously never met a girl like Kameron. Kosta, the coach's niece. I'll let that chick do whatever she wants to my stick, no matter the cost. **SNAP** Katherine Ramsland, 2012-02-21

Sudden flashes of inspiration have triggered many discoveries and inventions throughout history. Are such aha moments merely random, or is there a way to train the brain to harness these seemingly unpredictable creative insights? This fascinating overview of the latest neuroscience findings on spontaneous thought processes or snaps describes how everyone, not just geniuses, can learn to improve the likelihood of their own eureka moments by adopting certain rewarding attitudes and habits. As the author explains, snaps are much more than new ideas. Snaps are insights plus momentum; they instantly compel or snap us toward action. They often occur after ordinary problem solving hits an impasse. We may feel stuck, but while we're in a quandary, the brain is rebooting. Then, when we least expect it, the solution pops into our heads. She describes the results of numerous scientific experiments studying this phenomenon. She also recounts intriguing stories of people in diverse disciplines who have had a snap experience. Both the research and the stories illustrate that it's possible to enhance our facility for snap moments by training ourselves to scan, sift, and solve. In the emerging
