

The image features three violinists in silhouette, playing their instruments against a solid red background. The central violinist is a man, looking intently at his instrument. To his left and right are two women, also in silhouette, playing their violins. The Apple logo, a white silhouette of an apple with a bite taken out, is positioned to the left of the text. The text 'Music Classical' is in a large, white, sans-serif font, centered horizontally and partially overlapping the violinists. The overall composition is artistic and minimalist, emphasizing the form of the musicians and the vibrant red background.

Remuneration of Copyright Owners Kung-Chung Liu, Reto M. Hilty, 2017-05-04 This book evaluates existing and explores new mechanisms for the adequate payment of copyright owners for the use of their works The underlying assumption is that adequate rewards to creators and subsequent right holders will continue to be a goal of copyright law particularly to incentivize further creation and investment In the search for viable methods it first focuses on the reduction of transaction costs and the role of new technologies It also discusses the further development and broader application of new mechanisms that might be necessary to enhance the adequacy and efficiency of payment systems since the more onerous payment systems are the more irrelevant copyright risks become due to lack of acceptance and the less likely both are to fulfill their functions *Law, Policy and the Internet* Lilian Edwards, 2018-11-29 This comprehensive textbook by the editor of *Law and the Internet* seeks to provide students practitioners and businesses with an up to date and accessible account of the key issues in internet law and policy from a European and UK perspective The internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work rest and play As such an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society This book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology economics and politics Policy developments are closely analysed as an intrinsic part of modern governance *Law Policy and the Internet* focuses on two key areas e commerce including the role and responsibilities of online intermediaries such as Google Facebook and Uber and privacy data protection and online crime In particular there is detailed up to date coverage of the crucially important General Data Protection Regulation which came into force in May 2018 *Music, Management, Marketing, and Law* Phil Graham, 2019-03-25 This collection of interviews captures a period of historic change for the global music business along with a wealth of professional knowledge that extends from the late 1960s through to late 2012 when the interviews were conducted They record the experiences and insights of people who helped to shape a global business that is quickly passing into history and transforming into something entirely new often because of decisions the interviewees have been directly involved in making The material includes the aesthetic artistic technical commercial legal and strategic aspects of the music industry What is said is timeless in its historical significance for the music business and in its relevance for researchers engaged in studies on the dynamics of change in the global commercial music landscape **Computers and Society** Ronald M. Baecker, 2019-04-24 The last century has seen enormous leaps in the development of digital technologies and most

aspects of modern life have changed significantly with their widespread availability and use Technology at various scales supercomputers corporate networks desktop and laptop computers the internet tablets mobile phones and processors that are hidden in everyday devices and are so small you can barely see them with the naked eye all pervade our world in a major way Computers and Society Modern Perspectives is a wide ranging and comprehensive textbook that critically assesses the global technical achievements in digital technologies and how they are applied in media education and learning medicine and health free speech democracy and government and war and peace Ronald M Baecker reviews critical ethical issues raised by computers such as digital inclusion security safety privacy automation and work and discusses social political and ethical controversies and choices now faced by society Particular attention is paid to new and exciting developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with AI
