Bringers of Order James N. Gilmore, 2025-02-04 Wearable technology including smartwatches biometric trackers and body cameras are often touted as helpful tools that record produce and analyze data about daily life to improve our individual habits and health or to solve serious public issues In this book James N Gilmore argues that these lofty promises mask forms of surveillance and power Charting the implementation of wearables in areas of accessibility health sports labor law enforcement and infrastructure Gilmore demonstrates how these devices have been positioned as authoritative means for producing knowledge about human activity Drawing on news reporting advertising film and television company reports and legal policies he shows how this knowledge production reproduces three distinct modes of power normalcy surveillance and solutionism Bringers of Order empowers readers to examine the complicated ways our devices reshape how we think about our lives and our ethics and why we should resist companies analyzing our personal data

The Voice Catchers Joseph Turow, 2021-05-18 Your voice as biometric data and how marketers are using it to manipulate you Only three decades ago it was inconceivable that virtually entire populations would be carrying around wireless phones wherever they went or that peoples exact locations could be tracked by those devices We

now take both for granted Even just a decade ago the idea that individuals voices could be used to identify and draw inferences about them as they shopped or interacted with retailers seemed like something out of a science fiction novel Yet a new business sector is emerging to do exactly that The first in depth examination of the voice intelligence industry The Voice Catchers exposes how artificial intelligence is enabling personalized marketing and discrimination through voice analysis Amazon and Google have numerous patents pertaining to voice profiling and even now their smart speakers are extracting and using voice prints for identification and more Customer service centers are already approaching every caller based on what they conclude a caller s voice reveals about that person s emotions sentiments and personality often in real time In fact many scientists believe that a person s weight height age and race not to mention any illnesses they may have can also be identified from the sound of that individual s voice Ultimately not only marketers but also politicians and governments may use voice profiling to infer personal characteristics for selfish interests and not for the benefit of a citizen or of society as a whole Leading communications scholar Joseph Turow places the voice intelligence industry in historical perspective explores its contemporary developments and offers a clarion call for regulating this rising surveillance regime [Samsung vs Apple](#) Isaac Berners-Lee, AI, 2025-02-12 Samsung vs Apple explores the intense rivalry between two tech giants that reshaped the smartphone market This book examines how Samsung and Apple despite their vastly different approaches Samsung focusing on hardware and vertical integration Apple emphasizing user experience and ecosystem control achieved market supremacy Legal battles over intellectual property and design played a crucial role highlighting the complexities of balancing innovation with competition The book presents a balanced analysis of their strategic decisions and technological innovations relying on industry reports legal documents and unique datasets Tracing their histories to pivotal moments like the smartphone revolution it culminates in an analysis of the current market and future challenges Understanding consumer behavior branding influence and navigating global economies are key factors discussed This narrative non fiction approach makes complex information accessible to a broad audience from business professionals to technology enthusiasts The rivalry s implications extend beyond the tech industry offering valuable lessons for businesses in all sectors about competition and adaptation as well as deeper insight into the evolving landscape of mobile technology *Maximizing Saving* Martha M. Human Aspects of IT for the Aged Population. Design for the Elderly and Technology Acceptance Jia Zhou,Gavriel Salvendy,2019-07-10 This two volume set LNCS 11592 and 11593 constitutes the refereed proceedings of the 5th International Conference on Human Aspects of IT for the Aged Population ITAP 2019 held in July 2019 as part of HCI International 2019 in Orlando FL USA HCII 2019 received a total of 5029 submissions of which 1275 papers and 209 posters were accepted for publication after a careful reviewing process The 86 papers presented in these two volumes are organized in topical sections named Design with and for the Elderly Aging and Technology Acceptance Aging and the User Experience Elderly Specific Web Design Aging and Social Media Games and Exergames for the Elderly Ambient Assisted Living Aging Motion Cognition Emotion and Learning *Singapore 2065: Leading Insights On Economy And Environment From 50*

Singapore Icons And Beyond Euston Quah, 2015-07-30 As Singapore enters its 50th year of independence it is a time for introspection to look back at the successes and challenges of the past but is also a crucial time to consider what the future holds for the nation Singapore 2065 Leading Insights on Economy and Environment from 50 Singapore Icons and Beyond is one such key contribution to the endeavour of thinking about what lies ahead While many forthcoming projects and books take a more retrospective approach reflecting upon Singapore's past this book adopts a forward looking perspective contemplating Singapore's distant future which is important for posterity This book is a collection of key insights from 50 iconic individuals of Singapore and beyond and contains reasoned arguments speculations and visionary expectations of Singapore's future in 50 years time The book discusses the distant future of Singapore's economy and the environment What will Singapore's economic and environment landscape be like 50 years from now Are there trends or scenarios common to the various discussions contained in this book If there are how big would be the impact of some of these trends What and how should the government respond to these projections expectations and informed visions of tomorrow In sum what would Singapore's economy and environment be like in 2065 The book explores a range of possible answers to these questions and more Not only will the generations of today be able to gain much insight into Singapore's future by reading this book but future generations specifically 100 years after Singapore's independence will be able to understand and affirm what and how today's generations think about their time The book is a key contribution to envisioning Singapore's future which is also vital for understanding what shapes Singapore's landscape today

Cyber Physical Computing for IoT-driven Services Vladimir Hahanov, 2018-01-30 This book presents the cyber culture of micro macro cosmological and virtual computing The book shows how these work to formulate explain and predict the current processes and phenomena monitoring and controlling technology in the physical and virtual space The authors posit a basic proposal to transform description of the function truth table and structure adjacency matrix to a qubit vector that focuses on memory driven computing based on logic parallel operations performance The authors offer a metric for the measurement of processes and phenomena in a cyberspace and also the architecture of logic associative computing for decision making and big data analysis The book outlines an innovative theory and practice of design test simulation and diagnosis of digital systems based on the use of a qubit coverage vector to describe the functional components and structures Authors provide a description of the technology for SoC HDL model diagnosis based on Test Assertion Blocks Activated Graph Examples of cyber physical systems for digital monitoring and cloud management of social objects and transport are proposed A presented automaton model of cosmological computing explains the cyclical and harmonious evolution of matter energy essence and also a space time form of the Universe

Using the Google Places API and Google Trends Data to Develop High Frequency Indicators of Economic Activity Mr. Paul A Austin, Paul Austin, Mr. Marco Marini, Alberto Sanchez, Chima Simpson-Bell, James Tebrake, 2021-12-17 As the pandemic heightened policymakers demand for more frequent and timely indicators to assess economic activities

traditional data collection and compilation methods to produce official indicators are falling short triggering stronger interest in real time data to provide early signals of turning points in economic activity In this paper we examine how data extracted from the Google Places API and Google Trends can be used to develop high frequency indicators aligned to the statistical concepts classifications and definitions used in producing official measures The approach is illustrated by use of Google data derived indicators that predict well the GDP trajectories of selected countries during the early stage of COVID 19 To this end we developed a methodological toolkit for national compilers interested in using Google data to enhance the timeliness and frequency of economic indicators **Managerial Economics in a Global Economy** Dominick Salvatore,2018-07-13
