Ascent to Glory Álvaro Santana-Acuña, 2020-08-11 Gabriel García Márquez's novel *One Hundred Years of Solitude* seemed destined for obscurity upon its publication in 1967. The little-known author, small publisher, magical style, and setting in a remote Caribbean village were hardly the usual ingredients for success in the literary marketplace. Yet today it ranks among the best-selling books of all time. Translated into dozens of languages, it continues to enter the lives of new readers around the world. How did *One Hundred Years of Solitude* achieve this unlikely success? And what does its trajectory tell us about how a work of art becomes a classic? *Ascent to Glory* is a groundbreaking study of *One Hundred Years of Solitude* from the moment García Márquez first had the idea for the novel to its global consecration. Using new documents from the author's archives, Ivano Santana Acuña shows how García Márquez wrote the novel, going beyond the many legends that surround it. He unveils the literary ideas and networks that made possible the book's creation and initial success. Santana Acuña then follows this novel's path in more than seventy countries on five continents and explains how thousands of people and organizations have helped it to become a global classic. Shedding new light on the novel's imagination, production, and reception, *Ascent to Glory* is an eye-opening book for cultural sociologists and literary historians, as well as for fans of García Márquez and *One Hundred Years of Solitude*.

Rally Round the Flagpole Donna Snively Hulsey, 2016-06-22 When Donna Snively Hulsey found out in July 1989 that she'd be the first principal of a state-of-the-art elementary school, she teamed up with the community and got to work. It didn't matter that the school in Jacksonville, Florida, would not open until the fall of 1990. Before the first steel girder of Alimacani Elementary School was erected, the community began to spread a positive image of the school. Within seven years of opening, the school was recognized as a National Blue Ribbon School and a National Safe and Drug-Free School and accordingly was honored twice by the president of the United States at the White House. Redbook magazine named Alimacani the top school in Florida for its uncompromising commitment to excellence in school and community partnerships. Three Alimacani teachers were individually tapped as Duval Teacher of the Year, Florida Physical Education Teacher of the Year, and Florida Media Specialist of the Year. Whether you're a parent, an educator wanting to fix problems at an existing school, or establish a solid foundation at a new one, or a concerned citizen working on behalf of children, you'll find a blueprint for educational success in *Rally Round the Flagpole*.

Exercises in Architecture Simon Unwin, 2022-08-01 This revised edition of *Exercises in Architecture: Learning to Think as an Architect* is full of new content building on the success of the previous edition. All the original exercises have been revised, and new ones added, with the format changing to allow the inclusion of more supplementary material. The aim remains the same: to help pre- or early-course architecture students begin and develop their ability to think as architects. Learning to do architecture is tricky. It involves awakening abilities that remain dormant in most people. It is like learning language for the first time, a task made more mystifying by the fact that architecture deals not in

words but in places places to stand to walk to sit to hide to sleep to cook to eat to work to play to worship This book was written for those who want to be architects It suggests a basis for early experiences in a school of architecture but it could also be used in secondary schools and colleges or as self directed preparation for students in the months before entering professional education Exercises in Architecture builds on and supplements the methodology for architectural analysis presented in the author s previous book Analysing Architecture the Universal Language of Place Making fifth edition 2021 and demonstrated in his Twenty Five Buildings Every Architect Should Understand Routledge 2015 Together the three books deal with the three aspects of learning any creative discipline 1 Analysing Architecture provides a methodology for analysis that develops an understanding of the way architecture works 2 Twenty Five Buildings explores and extends that methodology through analysis of examples as case studies and 3 Exercises in Architecture offers a way of expanding understanding and developing fluency by following a range of rudimentary and more sophisticated exercises Those who wish to become professional architects wherever in the world they might be must make a conscious effort to learn the universal language of architecture as place making to explore its powers and how they might be used The exercises in this book are designed to help

Gestures of Concern Chris Ingraham, 2020-07-27 In *Gestures of Concern* Chris Ingraham shows that while gestures such as sending a Get Well card may not be instrumentally effective they do exert an intrinsically affective force on a field of social relations From liking sharing posting or swiping to watching a TED Talk or wearing an I Voted sticker such gestures operate as much through affective registers as they do through overt symbolic action Ingraham demonstrates that gestures of concern are central to establishing the necessary conditions for larger social or political change because they give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum Rather than supporting the notion that vociferous public communication is the best means for political and social change Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one another with an imaginable future in mind Ultimately he shows how acts that many may consider trivial or banal are integral to establishing those background conditions capable of fostering more inclusive social or political change
