Serving America with Honor Yuri G. Paredes

(USMCR),2025-03-18 Coming to America from Ecuador was a dream come true since I was a child It was how everyone portrayed it the way of life and that no matter who you are or where you came from you can achieve your goals if you set your mind to it known as the American dream After I obtained my bachelor of science in marine engineering with a coast guard license from Massachusetts Maritime Academy I started shipping with steam and diesel ships all over the world carrying containers military equipment jet fuel grain and coal just to name a few But as I was raised to be thankful and respectful to me I owed a debt to America for giving me the opportunity what I have become By the age of twenty nine I joined the US Marines in the enlisted program and later became a Marine officer in the infantry In the Marine Corps we were constantly training to be proficient on the war fighting principles Even though we train for combat seeing and experiencing real life situations is different The accounts that I have written in this book is from real life experiences awards given to the Marines and sailors that were in that situation and talking to them during the battle The Second Battle for Fallujah is known as one of the bloodiest battles in which I tell the story of some accounts and how we made it through

Transatlantic Modernism and the US Lecture Tour Robert Volpicelli,2021-06-24 Many Americans first encounter with international modernism came not on the page but in person through the widespread phenomenon of the US lecture tour Attending to these encounters Transatlantic Modernism and the US Lecture Tour reroutes our understanding of modernism away from the magazines and other mass media that have so far characterized its circulation and toward the unique form of cultural distribution that coalesced around the tour Offering many new and compelling archival insights this volume works across an admirably broad cultural landscape to reveal the US lecture tour as a primary mover of modernism The study highlights the role this circuit played in the formation of transatlantic modernism by following a diverse group of authors Oscar Wilde W B

Yeats Rabindranath Tagore Gertrude Stein and W H Auden on their whistle stop tours across America illuminating in the process how this extremely physical form of circulation transformed authors into object like commodities to be sold in a variety of performance venues Moreover it shows how these writers responded to such wide ranging distribution by stretching their own ideas about modernist authorship In doing so Transatlantic Modernism and the US Lecture Tour adds to a critical tradition of exposing those popular dimensions of modernism that far exceeded its standard coterie definition while also uncovering something else how the circuit s particular diversity of social contexts forced modernists to take on a new authorial flexibility that would allow them to make in roads with practically any audience elite popular and everything in between
