Price Management Hermann Simon, Martin Fassnacht, 2018-12-11. In this book the world's foremost experts on pricing integrate theoretical rigor and practical application to present a comprehensive resource that covers all areas of the field. This volume brings together quantitative and qualitative approaches and highlights the most current innovations in theory and practice. Going beyond the traditional constraints of price theory and price policy, the authors coined the term price management to represent a holistic approach to pricing strategy and tactical implementation. They remind us that the Ancient Romans used one word, *pretium*, to mean both price and value. This is the fundamental philosophy that drives successful price management where producer and customer meet. Featuring dozens of examples and case studies drawn from their extensive research consulting and teaching around the world, Simon and Fassnacht cover all aspects of pricing following the price management process with its four phases: strategy, analysis, decision, and implementation. Thereby, the authors take into account the nuances across industry sectors including consumer goods, industrial products, services, and trade distribution. In particular, they address the implications of technological advancements such as the Internet and new measurement and sensor technologies that have led to a wealth of price management innovations such as flat rates, freemium, pay per use, or pay what you want. They also address the emergence of new price metrics: Big Data applications, two-sided price systems, negative prices, and the sharing economy, as well as emerging payment systems such as bitcoin. The result is a bible for leaders who recognize that price is not only a means to drive profit in the short term but a tool to generate sustained growth in shareholder value over the longer term and a primer for researchers, instructors, and students alike. Praise for *Price Management*: This book is truly state of the art and the most comprehensive work in price management. Prof. Philip Kotler, Kellogg School of Management, Northwestern University. This very important book builds an outstanding bridge between science and practice. Kasper Rorsted, CEO Adidas. This book provides practical guidelines on value creation, communication, and management, which is an imperative for businesses to survive in the coming era of uncertainty. Dr. Chang Gyu Hwang, Chairman and CEO, KT Corporation, Korea Telecom. **Freemium** 50minutes, 2015-09-02. Attract more customers and boost your sales.
