Digital Competition Law in Europe Marc Wiggers, Robin Struijlaart, Johannes Dibbits, 2019-09-05 Digital competition a term and concept that has risen to the forefront of competition law may be viewed as both promising and cautionary on the one hand it brings the promises of increased speed efficiency and objectivity and on the other it entails potential pitfalls such as hard to identify pathways to unfair pricing dominant positions and their potential abuse restriction of choice and abuse of personal data Accordingly jurisdictions around the world are taking measures to deal with the phenomenon In this concise but thoroughly researched book both informative and practical lawyers from a prominent firm with a specialised digital competition team take stock and examine the state of digital competition in the enforcement practices of six competition authorities in Europe most of these

forerunners in the field of digital competition policy and enforcement The competition authorities surveyed are those of the European Union the United Kingdom France Germany the Netherlands and Belgium For each an overview spanning the period from 2012 to mid 2019 includes not only landmark cases in which digital technologies have had a significant impact on the competition law outcome but also guidance documents such as speeches policy statements industry surveys and research reports Activities and enforcement practices of the various authorities include the following and more degree of activity focus of the activity enforcement styles enforcement instruments visible effectiveness of enforcement and important insights and outlooks Each overview contains separate chapters on the cartel prohibition the prohibition of abuse of a dominant position and merger control An additional chapter evaluates the similarities and differences in the enforcement practices and the positive and negative effects of digital competition in the jurisdictions investigated and a concluding chapter offers recommendations An indispensable guide to quickly and accessibly acquiring in depth knowledge in competition law in the digital sector this matchless volume is a must read for any practitioner or academic who encounters competition law related to digital markets The dilemmas and challenges of the new competition law reality which is here already like it or not are clearly explained here for the benefit of regulators academics policymakers judges in house counsel and lawyers specialising in competition law and intellectual property law

The Cambridge Handbook of Private Law and Artificial Intelligence Ernest Lim, Phillip Morgan, 2024-03-28 AI appears to disrupt key private law doctrines and threatens to undermine some of the principal rights protected by private law The social changes prompted by AI may also generate significant new challenges for private law It is thus likely that AI will lead to new developments in private law This Cambridge Handbook is the first dedicated treatment of the interface between AI and private law and the challenges that AI poses for private law This Handbook brings together a global team of private law experts and computer scientists to deal with this problem and to examine the interface between private law and AI which includes issues such as whether existing private law can address the challenges of AI and whether and how private law needs to be reformed to reduce the risks of AI while retaining its benefits

Artificial Intelligence in Marketing K.
