Information and Communication Technology Wray Buntine, Morten Fjeld, Truyen Tran, Minh-Triet Tran, Binh Huynh Thi Thanh, Takumi Miyoshi, 2025-04-20 This four volume set CCIS 2350 2353 constitutes the referred proceedings of the 13th International Symposium on Information and Communication Technology SOICT 2024 held in Danang Vietnam in December 2024 The 88 full papers and 68 poster papers presented here were carefully reviewed and selected from 229 submissions The papers presented in these volumes are organized in the following topical sections Part I Multimedia Processing Operations Research Part II AI Applications Cyber Security Part III AI Foundations and Big Data Human Computer Interaction Part IV Lifelog and Multimedia Retrieval Generative AI Software Engineering

A.I. Artificial intelligence, introduction to the issues and current trends Pavel Bartoš, 2023-01-01 Artificial Intelligence AI often referred to by the acronym Artificial Intelligence is a fascinating and dynamically developing field that has far reaching implications for various sectors of human activity At its core it is the simulation of human intelligence in computer systems AI is capable of learning planning problem solving speech recognition visual perception and many other cognitive functions that were previously considered the exclusive domain of human thought

Kreative Intelligenz Mario Herger, 2023-11-30 Wer ChatGPT hat man viel gelesen in der letzten Zeit die künstliche Intelligenz die ganze Bücher schreiben kann und der bereits jetzt unterstellt wird Legionen von Autoren Textern und Übersetzern arbeitslos zu machen Und ChatGPT ist nicht allein die KI Familie wächst beständig So malt DALL-E Bilder Face Generator simuliert Gesichter und MusicLM komponiert Musik Was erleben wir da Das Ende der Zivilisation oder den Beginn von etwas völlig Neuem Zukunftsforscher Dr Mario Herger ordnet die neuesten Entwicklungen aus dem Silicon Valley ein und zeigt auf welche teils bahnbrechenden Veränderungen unmittelbar vor der Tür stehen

AI for Creatives Vivian Ching, Dinesh Mothi, 2025-03-12 AI for Creatives Unlocking Expressive Digital Potential takes you on a dynamic journey into the future of creativity where AI is reshaping how creators approach their craft According to a 2023 UNESCO report the global creative industries are valued at an astounding USD 4.3 trillion annually employing nearly 30 million people worldwide This essential guide empowers professionals across visual arts music writing film fashion and design to leverage the transformative potential of AI to elevate their work in ways previously unimaginable Designed as a practical handbook for creative professionals this book provides a clear and approachable road map for integrating AI into your work regardless of

prior experience Packed with real world case studies step by step walk throughs and insights into AI driven tools like RunwayML Midjourney Canva and ChatGPT the book demonstrates how AI can supercharge creative processes Whether you are a filmmaker using AI for hyper realistic visuals or a fashion designer predicting fabric trends this guide offers the tools to unlock your full creative potential The book also dives into the deeper ethical and legal questions that emerge as machines increasingly enter the creative arena How do we strike the right balance between human ingenuity and machine driven creativity What happens to intellectual property rights when AI becomes a co creator This book tackles these pressing issues head on from navigating bias in AI algorithms to safeguarding the authenticity of creative works while also exploring the role of education in navigating these challenges With actionable insights creative professionals will learn to embrace AI while preserving the integrity originality and values that define their craft AI is not just changing how we create but also disrupting the future of employment and economic growth across the globe With the demand for creative roles projected to surge by 30 40% by 2030 it is evermore critical to harness the power of AI to stay ahead innovate faster and meet the growing need for creative solutions across industries Are you ready to explore the future of creativity and amplify your vision Step into the next era of AI transformation with this essential guide your creative revolution starts now **Mastering AI** Jeremy Kahn, 2025-07-08 A Fortune magazine journalist draws on his expertise and extensive contacts among the companies and scientists at the forefront of artificial intelligence to offer dramatic predictions of AI's impact over the next decade from reshaping our economy and the way we work learn and create to unknitting our social fabric jeopardizing our democracy and fundamentally altering the way we think Within the next five years Jeremy Kahn predicts AI will disrupt almost every industry and enterprise with vastly increased efficiency and productivity It will restructure the workforce making AI copilots a must for every knowledge worker It will revamp education meaning children around the world can have personal portable tutors It will revolutionize health care making individualized targeted pharmaceuticals more affordable It will compel us to reimagine how we make art compose music and write and publish books The potential of generative AI to extend our skills talents and creativity as humans is undeniably exciting and promising But while this new technology has a bright future it also casts a dark and fearful shadow AI will provoke pervasive disruptive potentially devastating knock on effects Leveraging his unrivaled access to the leaders scientists futurists and others who are making AI a reality Kahn will argue that if not carefully designed and vigilantly regulated AI will deepen income inequality depressing wages while imposing winner take all markets across much of the economy AI risks undermining democracy as truth is overtaken by misinformation racial bias and harmful stereotypes Continuing a process begun by the internet AI will rewire our brains likely inhibiting our ability to think critically to remember and even to get along with one another unless we all take decisive action to prevent this from happening Much as Michael Lewis's classic *The New New Thing* offered a prescient insightful and eminently readable account of life inside the dot com bubble *Mastering AI* delivers much needed guidance for anyone eager to understand the AI boom and what

comes next **Machine Learning in Medicine** Ayman El-Baz, Jasjit S. Suri, 2021-08-03 Machine Learning in Medicine covers the state of the art techniques of machine learning and their applications in the medical field It presents several computer aided diagnosis CAD systems which have played an important role in the diagnosis of several diseases in the past decade e g cancer detection resulting in the development of several successful systems New developments in machine learning may make it possible in the near future to develop machines that are capable of completely performing tasks that currently cannot be completed without human aid especially in the medical field This book covers such machines including convolutional neural networks CNNs with different activation functions for small to medium size biomedical datasets detection of abnormal activities stemming from cognitive decline thermal dose modelling for thermal ablative cancer treatments dermatological machine learning clinical decision support systems artificial intelligence powered ultrasound for diagnosis practical challenges with possible solutions for machine learning in medical imaging epilepsy diagnosis from structural MRI Alzheimer s disease diagnosis classification of left ventricular hypertrophy and intelligent medical language understanding This book will help to advance scientific research within the broad field of machine learning in the medical field It focuses on major trends and challenges in this area and presents work aimed at identifying new techniques and their use in biomedical analysis including extensive references at the end of each chapter **Can AI Craft Communication?**

Richard Tigges, 2025-02-12 Can AI craft communication And how do you get a company to the forefront of the Generative AI GenAI movement or at least among the fast followers At the moment there are actually far more communication professionals dealing with this question than would like to admit In this guide Richard Tigges experienced radio and TV journalist and CommTech PR strategist takes away the fear of taking the first or second step The book is a concrete guide on how to introduce artificial intelligence into your PR or marketing department quickly efficiently and above all in a meaningful way There are quick wins and long term strategic decisions that will pay off Making Media Futures Phillip H. Roth, Ana María Guzmán Olmos, Alin Olteanu, Stefan Bösch, 2025-04-22 Making Media Futures offers a multi perspectival exploration of how imaginaries and knowledge of the future are constructed in and through various media The volume addresses the discursive dimensions of imaginaries and future visions as well as the impact of technological material and cultural conditions on the propagation of future discourses through media Providing both theoretically detailed and empirically rich investigations the contributions offer a wide range of cases spanning the century from the end of World War II until today and looking at examples from the Southern Hemisphere as well as the Global North Bringing together scholars in media studies science and technology studies STS and the history and philosophy of technology the chapters discuss future visions and imaginations of quantum computing the uncertainty and impact of AI based text to image generation the ideology behind 5G telecommunication standards imaginaries of the Internet of Things transmedia strategies in global and local climate protests how broadcast radio was implicated in the evangelical mission imaginary and how early visions of automating scholarly

information management shaped standards and ideals of academia The volume thus complements existing approaches and analytical frameworks for the study of imaginaries and futures discourses with perspectives that are sensitive to the plurality of media specific conditions and technologies The book will interest students and scholars working in media studies STS history and philosophy as well as at the intersection of engineering humanities and social sciences on matters such as sustainability ethics and responsible innovation

Recreating Creativity, Reinventing Inventiveness Nikos Koutras, Niloufer Selvadurai, 2024-04-02 As artificial intelligence AI is increasingly used to generate inventions and creative works a critical question to be addressed is whether intellectual property IP laws should protect such works This book examines the critical question of whether intellectual property laws should protect works generated by artificial intelligence If we do not wish to use IP laws to protect such works how can we still support research development and innovation in society If we do wish to use IP laws to protect such works should the copyright patents and other IP rights attach to the human creator of the AI technology or the AI system The book explores these compelling societal economic and legal issues The authors evaluate the continuing relevance of existing laws explore the divergent approaches being debated by nations around the world and present visions for change The book will enable both lawyers and non lawyers to reimagine governance frameworks to create laws that equitably balance the interests of creators investors and end users of AI generated works

Surviving the Wild Wild Web Marton Gergely, Ian Grey, Heba Saleous, 2024-12-26 The information security arena is often vague and confusing for internet users both young and old New traps are being devised daily and falling into them can take legal ethical financial physical and mental tolls on individuals With increasing cases of fake news identity theft piracy spying and scams surfacing this book explains the risks of the internet and how they can be mitigated from a personal and professional perspective Surviving the Wild Wild Web A User's Playbook to Navigating the Internet's Trickiest Terrains is a readable guide addressing the malicious behaviors within internet cultures Written in simple and jargon free language the book describes ten pillars of information security risks faced by all internet users Each pillar will be detailed as a story starting with the roots of the problem and branching out into tangential related issues and topics Each chapter ends by

detailing ways a user can avoid falling victim to cyber threats It uses a combination of news articles topical current events and previously published academic research to underpin the ideas and navigates how users interact with the World Wide Web The book aims to create a generation of internet literate readers who can spot the pitfalls of the internet in their personal and professional lives to surf the web safely This guide will appeal to any individual interested in internet safety with a potential readership extending to students and professionals in the fields of computer science information systems cybersecurity business management human resources psychology medicine education law and policy *AI for Daily Life: 50 Simple Ways Artificial Intelligence Makes Everyday Living Smarter* Dizzy Davidson, 2025-07-23 Practical AI for Everyday Living 50 Smart Ways to Simplify Secure and Supercharge Your World If you've ever scrambled to remember appointments or if you've stayed up late wrestling with to do lists this book is for you If you dread mundane chores and crave more free time this book is for you If you wish your home could think for itself keeping you safe saving money and streamlining your life this book is for you Welcome to your ultimate guide to AI in everyday life 50 chapters packed with tips tricks step by step guides real life stories illustrations and clear examples Whether you're a tech beginner or the family go to gadget guru you'll learn how to harness AI to solve the daily headaches that steal your time and peace of mind Inside you'll discover how to Master AI Assistants Wake up with Siri or Alexa prepping your day handling reminders alarms and grocery lists hands free and fuss free Automate Chores Deploy robot vacuums smart thermostats and automated pet feeders that learn your habits so you never vacuum adjust the heat or worry about Fido's dinner again Plan Meals Like a Pro Use AI grocery apps to track your pantry suggest recipes and generate optimized shopping lists in seconds Stay Secure Arm your home with AI driven security cameras doorbells and sensors that distinguish family pets and genuine threats cutting false alarms to zero Predict the Weather Get hyperlocal storm and flood alerts powered by AI models that process satellite radar and historical data for minute by minute accuracy Optimize Sleep Track sleep stages adjust mattress firmness and tune bedroom temperature automatically so you wake up refreshed PLUS Real world case studies from a busy mom who reclaimed her mornings to a college student whose grades soared after fixing her sleep schedule Packed with easy to follow diagrams sidebars and checklists every chapter hands you practical steps you can apply today Stop letting life's small tasks steal your joy Transform your home and habits with AI as your partner so you can focus on what truly matters GET YOUR COPY TODAY *AI Aesthetics* Jan-Noël Thon, Lukas R.A. Wilde, 2025-09-09 This volume investigates the intersection of generative AI and media aesthetics from an interdisciplinary perspective Combining in depth theoretical reflection with a diverse selection of case studies its authors explore the aesthetic forms of AI generated medial objects as well as the cultural imaginaries that the latter draw upon Bringing together a group of scholars from various geographic and disciplinary backgrounds the chapters move within and across different conceptualizations of AI aesthetics that can be located in between an aesthetics as artistics that is primarily concerned with aesthetic judgments related to skill and connoisseurship and an aesthetics as aesthetics that

identifies all kinds of embodied perception as its object The book thus reflects on both the theoretical and the methodological implications of AI aesthetics while also demonstrating that this is still very much an emerging research field and that no dominant conceptualization of AI aesthetics has yet emerged Considering its decidedly international and interdisciplinary scope AI Aesthetics AI Generated Images between Artistics and Aisthetics will appeal to scholars and students within media studies cultural studies literary studies philosophy art history visual culture studies digital humanities and critical AI studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Artificial Intelligence and Law in the Communication Professions Cayce Myers, 2025-06-06 This book analyzes the current attempts to regulate artificial intelligence AI and its impact on the communication field Examining existing and proposed laws policies and regulations of AI in the U S and the European Union this book analyzes how the technological development of AI will be governed in the next decade and how this will impact the communication industry Chapters explore the influence of laws on key communication issues including free speech disinformation intellectual property privacy and discrimination as well as the AI industry s approach to self regulation It shows how communication professionals such as public relations practitioners advertisers and journalists will be affected by generative AI content production and how communication will ultimately be shaped by the regulations and laws placed on AI Providing readers with a working knowledge of the contemporary legal issues surrounding AI and communication this book will be of interest to scholars and students in the fields of Media and Communication Law Public Relations Advertising and Journalism
