Types of leagues, scoring systems and drafts. How to rank players. Draft day tips, theories and advanced strategies. Roster Management skills, trades, add/drops, start/bench decisions. Auction Keeper and IDP leagues. Interview with Lenny Pappano, co-founder, World Championship of Fantasy Football and draftsharks.com. Psychology of Fantasy Football. Injuries. And much more. The Winner's Guide to Drafting a Fantasy Football Team Chris Lee, 2009-08-06 Fantasy football has become one of

my favorite pastimes of tens of millions of American males and there are literally hundreds of websites, books, magazines and television shows designed to tell you everything you need to know about the subject. Almost everything that is. Anyone who has ever tried to find a definitive way to rank players for their fantasy draft or worse, find dollar values for auction style leagues, knows the difficulty of finding a system that works for their leagues. Because leagues vary according to size, rules and scoring systems, a player who may be a valuable commodity in one league may be below average in another. Therefore, the one size fits all rankings or valuations that you see most places can be useless. And even if those rankings were designed specifically for leagues like yours, values and rankings are normally assigned in a subjective manner without any mathematical evidence to support the author's case. The Winner's Guide to Drafting a Fantasy Football Team has a timeless solution to the problem of finding customized and accurate rankings and dollar values that work for any fantasy league. Author Chris Lee explains what constitutes value and how that value can be translated to rankings and dollar values for any league in a common sense way that removes the guesswork that's at the foundation of most ranking and dollar valuation systems. Simply put, if you know what kind of statistics a player is going to produce in the coming year, you'll know where to draft him or how much to pay for him at your draft. This proven system has helped Chris win many leagues. By following the steps in this book, you can build a spreadsheet that will help you win yours as well. **Socialnomics** Erik
