with contemporary issues in financial regulation given the post crisis regulatory landscape The major idea put forward is that rampant corruption and fraud in the financial sector provide the main justification for financial regulation Specific issues that are dealt with include the proposition that the Efficient Market Hypothesis was both a cause and a casualty of the global financial crisis The book also examines the regulation of remuneration in the financial sector credit rating agencies and shadow banking Also considered is financial reform in Iceland and the proposal to move away from fractional reserve banking to a system of sovereign money A macroeconomic regulatory issue that is also considered is quantitative easing and the resulting environment of ultra low interest rates Is It Racist? Is It Sexist? Jessi Streib,Betsy

Leondar-Wright,2025-01-14 How can the judgment calls we make in everyday life create or help eradicate social inequality Is It Racist Is It Sexist Two questions that seem simple on their face but which invite a host of tangled responses In this book Jessi Streib and Betsy Leondar Wright offer a new way of understanding how inequalities persist by focusing on the individual judgment calls that lead us to decide what s racist what s sexist and what s not Racism and sexism often seem like optical illusions with some people sure they see them and others sure they re not there but the lines that most consistently divide our decisions might surprise you Indeed white people s views of what s racist and sexist are increasingly up for grabs As the largest racial group in the country and the group that occupies the most and the highest positions of power what they decide is racist and sexist helps determine the contours of inequality By asking white people Southerners and Northerners Republicans and Democrats working class and professional middle class men and women to decide whether specific interactions and institutions are racist sexist or not Streib and Leondar Wright take us on a journey through the decision making processes of white people in America By presenting them with a variety of scenarios the authors are able to distinguish the responses as being characteristic of different patterns of reasoning They produce a framework for understanding these patterns that invites us all to engage with each other in a new way even on topics that might divide us Is It Racist Is It Sexist will leave you questioning how you decide whether a joke a hiring decision or a policy change is or isn t racist or sexist and will give you new tools for making more accurate and productive judgment calls *PC Mag* ,1984-09-04 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **The Boston Globe Index** ,2001 Billboard ,1995-10-14 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Best's Insurance Reports** ,1986 Upon all legal reserve companies assessment associations and fraternal societies transacting business in the United States
