New Seeds And Poor People:

New Seeds and Poor People Michael Lipton, Richard Longhurst, 2010-11-29 First published in 1989 this book deals with the impact of cereal production upon the Third World specifically Modern Varieties MVs Using evidence from plant breeding economics and nutrition science the authors seek to pinpoint what has been achieved what has gone wrong and what needs to be done in future Although the technical innovations of MVs mean more employment cheaper food and less risk for small farmers the reduction in crop diversity increases the risk of danger from pests and though MVs enlarge cereal stocks many are too poor to afford them The book concludes that technical breakthroughs alone won't solve deep rooted social problems and that only new policies and research priorities will increase the choices assets and power of the rural poor *Global Food-Price Shocks and Poor People* Marc J. Cohen, Melinda Smale, 2014-06-11 This book examines the effects of high and volatile food prices during 2007-08 on low income farmers and consumers in developing transition and industrialized countries Previous studies of this crisis have mostly used models to estimate the likely impacts This volume includes actual evidence from the field as to how higher prices affected access to food and farm income among poor people In addition to country and regional case studies the book presents discussions of cross cutting themes including gender risk management violence the importance of subsistence farming as a coping strategy and the role of governments and markets in addressing higher prices With 2011 witnessing an unprecedentedly high level of food prices the findings and policy recommendations presented here should prove useful to both scholars and policy makers in understanding the causes and consequences as well as the policies needed to ensure food security in light of the skyrocketing cost of food This book was published as a special double issue of *Development in Practice* Information India 1997-98 And 1998-99 : Global View S. P. Agrawal, 2002

One Billion Hungry Gordon Conway, 2012-10-16 Hunger is a daily reality for a billion people More than six decades after the technological discoveries that led to the Green Revolution aimed at ending world hunger regular food shortages malnutrition and poverty still plague vast swaths of the world And with increasing food prices climate change resource inequality and an ever increasing global population the future holds further challenges In *One Billion Hungry* Sir Gordon Conway one of the world's foremost experts on global food needs explains the many interrelated issues critical to our global food supply from the science of agricultural advances to the politics of food security He expands the discussion begun in his influential *The Doubly Green Revolution Food for All in the Twenty First Century* emphasizing the essential combination of increased food production environmental stability and poverty reduction necessary to end endemic hunger on our planet Beginning with a definition of hunger and how it is calculated and moving through issues topically both detailed and comprehensive each chapter focuses on specific challenges and solutions ranging in scope from the farmer's daily life to the global movement of food money and ideas Drawing on the latest scientific research and the results of projects around the world Conway addresses the concepts and realities of our global food needs the legacy of the Green Revolution the impact of

market forces on food availability the promise and perils of genetically modified foods agricultural innovation in regard to crops livestock pest control soil and water and the need to both adapt to and slow the rate of climate change One Billion Hungry will be welcomed by all readers seeking a multifaceted understanding of our global food supply food security international agricultural development and sustainability Impact of Improved Maize Germplasm on Poverty Alleviation ,2005 **Knowledge for Development** ,1998 World Development Report 1998 1999 now in its twenty first edition focuses on the role of knowledge and information as a factor of development including the important trade offs in strategies and policies and many other challenges It examines such important questions as why have some developing countries been able to exploit the rapidly increasing stock of global knowledge more than others and what can be done to help those falling behind The Report also looks at the challenge of finding the balance between private initiative and public intervention that encourages innovation and manages attendant risks It deals with the role of international assistance and international organizations which can help develop understanding about these complex processes help to transfer lessons of development experience across countries and help finance crucial knowledge investments of importance to developing countries Known as the standard reference for international economic data the World Development Report 1998 1999 provides a set of Selected World Development Indicators as an appendix presenting social and economic statistics for more than 200 countries Rich Forests, Poor People Nancy Lee Peluso,1992 Millions of Javanese peasants live alongside state controlled forest lands in one of the world s most densely populated agricultural regions Because their legal access and customary rights to the forest have been severely limited these peasants have been pushed toward illegal use of forest resources Rich Forests Poor People untangles the complex of peasant and state politics that has developed in Java over three centuries Drawing on historical materials and intensive field research including two contemporary case studies Peluso presents the story of the forest and its people Without major changes in forest policy Peluso contends the situation is portentous Economic social and political costs to the government will increase Development efforts will be stymied and forest destruction will continue Mindful that a dramatic shift is unlikely Peluso suggests how tension between foresters and villagers can be alleviated while giving peasants a greater stake in local forest management Globalization, the Third World State and Poverty-Alleviation in the Twenty-First Century B. Ikubolajeh Logan,2017-11-22 This title was first published in 2002 Bringing together an inspiring mix of US and African contributors this book explores the dynamics of the unfolding globalized economic political socio cultural and environmental systems Featuring incisive international commentary on the causes and consequences of poverty in the Third World it presents a powerful study of the strategies by which Third World governments and civil society can overcome poverty by insinuating themselves more creatively into the global order The result is one of the defining works so far produced on the tensions between globalization and development **SCN News** ,1988 The Florists' Exchange ,1891 **The Florida Agriculturist** ,1891 *American Gardening* ,1890 **The Chemical News** ,1874 *Farm Journal* ,1898

Chemical news and Journal of physical science ,1874 Prairie Farmer ,1884 *Minutes of Evidence Taken Before Her Majesty's Commissioners on Agriculture* Great Britain. Royal Commission on Agriculture,1881 *The Christian Union* Henry Ward Beecher,1893 **Garden and Forest** Charles Sprague Sargent,1893 World Development Report ,1998 The report analyzes the risks and opportunities that the global information revolution is creating for developing countries and concludes that access to financial technical and medical knowledge is crucial to improving the health and living standards of the poor The report focuses on two types of knowledge and two types of problems that are critical for developing countries How to knowledge such as nutrition birth control engineering or accounting Typically developing countries have less know how than industrial countries and poor people have less know how than wealthier people The report argues that closing these knowledge gaps for example through education better phone systems and openness to exchanges with foreign countries including trade can do much to help the world s poorest people to improve their lives Second knowledge about attributes or characteristics such as the quality of a product diligence of a worker or creditworthiness of a firm The report describes this lack of knowledge as information problems and argues that this in turn leads to market failures such as lenders refusal to offer loans to poor people because of the difficulty in assessing their ability to repay
