Europe and Central America , *The Dawn of Everything* David Graeber,David Wengrow,2021-10-19 THE NEW YORK TIMES BESTSELLER AND SUNDAY TIMES OBSERVER AND BBC HISTORY BOOK OF THE YEAR FINALIST FOR THE ORWELL PRIZE FOR POLITICAL WRITING 2022 Pacey and potentially revolutionary Sunday Times Iconoclastic and irreverent an exhilarating read The Guardian For generations our remote ancestors have been cast as primitive and childlike either free and equal or thuggish and warlike Civilization we are told could be achieved only by sacrificing those original freedoms or alternatively by taming our baser instincts David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a reaction to indigenous critiques of European society and why they are wrong In doing so they overturn our view of human history including the origins of farming property cities democracy slavery and civilization itself Drawing on path breaking research in archaeology and anthropology the authors show how history becomes a far more interesting place once we begin to see what s really there If humans did not spend 95 per cent of their evolutionary past in

tiny bands of hunter gatherers what were they doing all that time If agriculture and cities did not mean a plunge into hierarchy and domination then what kinds of social and economic organization did they lead to The answers are often unexpected and suggest that the course of history may be less set in stone and more full of playful possibilities than we tend to assume The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom new ways of organizing society This is a monumental book of formidable intellectual range animated by curiosity moral vision and faith in the power of direct action This is not a book This is an intellectual feast Nassim Nicholas Taleb The most profound and exciting book I ve read in thirty years Robin D G Kelley *Los Gringos* Lieut.
