New York Business Litigation 2016:

Business Law David Kelly, Ruby Hammer, Janice Denoncourt, John Hendy, 2020-07-12 This fourth edition of *Business Law* offers comprehensive and accessible coverage of the key aspects of business law. Established legal topics such as the English legal system, Contract, Consumer, Intellectual Property, Company and Employment Law, and emerging areas such as Health, Safety and Environmental Law are all addressed in the context of business. The work has been thoroughly updated to include all the major recent developments in business law such as the new EU Trade Secrets Directive and case outcomes decided since the publication of the last edition. The book also discusses the impact of Brexit. In addition, the book features extensive diagrams and tables, revision summaries, reading lists, and clear key case boxes for easy reference. This book is ideal reading for undergraduate law and business studies students while also applicable to practitioners and those with a more general interest in business law.

International Business K. Praveen Parboteeah, John B. Cullen, 2017-07-06 This book provides students with a balanced perspective on business in a global environment, exploring implications for multinational companies in developed and emerging markets. This is the first text of its kind to emphasize strategic decision making as the cornerstone of its approach while focusing on emerging markets. Traditional topics like foreign exchange markets and global competition are contrasted with emerging operations like Chinese market intervention and Islamic finance to provide students with an understanding of successful business strategy. Readers learn to develop and implement these strategies across cultures and across economic, legal, and religious institutions in order to cope with competitive players in the global landscape. Application-based chapters open with reading goals and conclude with case studies and discussion questions to encourage a practical understanding of strategy. With in-depth analyses and recommended strategies, this edition provides students of international business with the skills they need for success on the global stage. A companion website features an instructor's manual, test bank, PowerPoint slides, and useful links for instructors, as well as practice quizzes, flashcards, and web resources for students.

Woodrow Barfield,Ugo Pagallo,2018-12-28 The field of artificial intelligence AI has made tremendous advances in the last two decades but as smart as AI is now it is getting smarter and becoming more autonomous This raises a host of

challenges to current legal doctrine including whether AI algorithms should count as speech whether AI should be regulated under antitrust and criminal law statutes and whether AI should be considered as an agent under agency law or be held responsible for injuries under tort law This book contains chapters from US and international law scholars on the role of law in an age of increasingly smart AI addressing these and other issues that are critical to the evolution of the field Role of Domestic Courts in the Settlement of Investor-State Disputes A. Saravanan,S.R. Subramanian,2020-10-28 This book addresses the interactions between the domestic courts and the international investment arbitral tribunals one of the most pressing issues confronting both domestic legal systems and the international legal system It deals with the core issues inherent in the above interactions especially with regard to countries outside the ICSID system It contrasts this narrative with the position under classical international investment law where national courts are assigned a very specific and minimalistic role in the process of investment disputes settlement For this purpose the book chooses India which follows the non ICSID model as the major point of focus and considers both domestic judicial decisions and investment arbitral decisions for critical analysis The ICSID Convention grants limited powers to domestic courts to issue provisional measures and to enforce ICSID awards As the central theme of the book lies at the intersection of domestic law and international law the work is indispensable for any scholar working in the areas of general international law international investment law international economic law law and economics international dispute settlement or international law in domestic courts as well as domestic judges and international arbitrators Further as the subject matter has great implications for both domestic and global governance it will benefit civil servants opinion leaders policy planners and subject experts in economics the political economy and regional studies to name a few Excerpt from the Foreword One of the great merits of this book is that It looks at bilateral investment treaties themselves to probe more deeply into the role of national courts in investment arbitration This masterful book fills a major void as a resource in Indian international arbitration law But is also the prototype of what any serious inquiry into the judicial role in investor State arbitration in any jurisdiction should look like George A Bermann Walter Gellhorn Professor of Law and Jean Monnet Professor of European Union Law Columbia Law School USA
