development **Thought This Might Help Someone** David Porter, 2021-01-13 Thought This Might Help Someone is a journey to the next great version of yourself It follows the dailies David Porter s continuing series of daily seeds he scatters to the universe Through personal introspection the author has created a true transformation in his life from disconnected to powerful As you read the book you ll learn how to trust yourself as you reach for your dreams find connection and fulfillment with others seek opportunities to look at the world differently After each daily reflection the author poses questions that will allow you to craft your own dailies Your answers will become the raw material that creates each greater version of you By taking the time and making the effort you can create your own personal scripture as a product of your mind heart and soul And from there your trajectory is squarely in your hands Slow down take time to reflect and find the greatest version of you with the insights and wisdom in this book *Self-Help Books* Sandra K. Dolby, 2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along **The Self-Help Compulsion** Beth Blum, 2020-01-28 Samuel Beckett as a guru for business executives James Joyce as a guide to living a good life The notion of notoriously experimental authors sharing a shelf with self help books might seem far fetched yet a hidden history of rivalry influence and imitation links these two worlds In The Self Help Compulsion Beth Blum reveals the profound entanglement of modern literature and commercial advice from the late nineteenth century to the present day Blum explores popular reading practices in which people turn to literature in search of practical advice alongside modern writers rebukes of such instrumental purposes As literary authors positioned themselves in opposition to people like Samuel Smiles and Dale Carnegie readers turned to self help for the promises of mobility agency and practical use that serious literature was reluctant to supply Blum unearths a series of unlikely cases of the love hate relationship between serious fiction and commercial advice from Gustave Flaubert s mockery of early DIY culture to Dear Abby s cutting diagnoses of Nathanael West and from Virginia Woolf s ambivalent polemics against self improvement to the ways that contemporary global authors such as Mohsin Hamid and Tash Aw explicitly draw on the self help genre She also traces the self help industry s tendency to popularize quote and adapt literary wisdom and considers what it might have to teach today s university Offering a new history of self help s origins appeal and cultural and literary

import around the world this book reveals that self help s most valuable secrets are not about getting rich or winning friends but about how and why people read **Bringing Heart and Mind into Storytime** Heather McNeil,2022-04-01 Learn how to use children s books during storytime to approach sensitive topics and increase children s social emotional wellness and how to create storytimes that are engaging participative and FUN The emotional challenges many children experience consume the time of teachers exhaust parents and sometimes lead children toward behaviors that prohibit social and academic success Storytime to the rescue Library storytimes prepare children for kindergarten storytimes at home and in preschools allow teachers parents and children to think and talk about empathy and the importance of honoring your own and others feelings In Bringing Heart and Mind into Storytime Heather McNeil teaches librarians and teachers how to use books to open conversations with children to teach such concepts as patience tenacity kindness and teamwork McNeil shares research on brain development social emotional learning and the importance of play but she also emphasizes maintaining the fun of storytime She recommends songs action rhymes games and crafts that contribute to fun and healthy storytimes Extensive lists of recommended books will help readers find the right ones for their audience *Helping People Help Themselves* David Ellerman,2009-04-15 David Ellerman relates a deep theoretical groundwork for a philosophy of development while offering a descriptive practical suggestion of how goals of development can be better set and met Beginning with the assertion that development assistance agencies are inherently structured to provide help that is ultimately unhelpful by overriding or undercutting the capacity of people to help themselves David Ellerman argues that the best strategy for development is a drastic reduction in development assistance The locus of initiative can then shift from the would be helpers to the doers recipients of development Ellerman presents various methods for shifting initiative that are indirect enabling and autonomy respecting Eight representative figures in the fields of education community organization economic development psychotherapy and management theory including Albert Hirschman Paulo Freire John Dewey and S ren Kierkegaard demonstrate how the major themes of assisting autonomy among people are essentially the same David Ellerman is currently a Visiting Scholar in the Economics Department at the University of California at Riverside How Children Experience Trauma and How Parents Can Help Them Cope Meg Fargher,Helen Dooley,2012-09-28 For a parent there are few things more frightening than the thought of one s child or a close family member becoming the victim of trauma How do I help them cope Can I help them cope What if I m not even able to cope myself These are some of the automatic responses that could flash through a parent s mind at the prospect of having to deal with an unexpected painful or traumatic experience or with the fear or threat of such trauma becoming a reality These experiences can be damaging and life changing on many levels and in many societies they have indeed become an everyday reality The chapters in How Children Experience Trauma And How Parents Can Help Them Cope address a number of different types of trauma and they offer sound and tested advice on each one Among others they deal with trauma related to crime to accidents untimely death

and devastating loss They cover peer group and relationship issues including bullying and abuse and each one presents a number of illustrative case studies to help parents relate to and understand what they and their children might be experiencing internally The authors explain some typical emotional and physiological reactions that may arise during immediately after and some time after the trauma They provide parents and caregivers with the theoretical as well as some practical tools to guide their children and themselves towards recovery and healing All trauma although accompanied by loss often terrifying and terrible loss gives us an opportunity to put life into perspective encourages us to evaluate relationships and possibly to shed that which is toxic or unhelpful and to retain that which is healthy By presenting the theory and examining the therapeutic options available Meg Fargher and Helen Dooley draw on their extensive training and experience in this field to help parents and children access the resilience that is part of every human being allowing them to heal and move on different but potentially stronger

More Moral than God Charlene Burns, 2008-07-25 In the wake of the 9 11 tragedy recent political and religious conflicts attention to religious violence has increased exponentially Although violence in the name of religion has been around for centuries there is increasing need to examine the roots of religious violence with the hope of working for peace In *More Moral than God* Charlene Burns takes a unique look at the psychological motivations behind religious violence Drawing from psychology philosophy and theology Burns illuminates the interplay between our images of God our individual egos and our collective selves and brings to light the degree to which each of us can and must take responsibility for the religious landscape In addition to her own perspective on religious violence Burns provides a brief history of religious violence and addresses other possible motivations including politics economics globalization family dynamics and more

El Arte Nuevo de Estudiar Comedias Barbara Simerka, 1996 This anthology of new approaches to literary study takes its name from Lope de Vega's *Arte nuevo de hacer comedias* Like Lope's poem on poetics this volume also operates as a defense in the sense that many of the articles include a defense of the usefulness of literary theory in general and of their chosen approach in particular for enriching the study of the *comedia* In these essays it is the not quite new art of *estudiar* rather than *hacer drama* that is the central concern the contributors defending theoretical innovations approximately twenty years after James Parr in the pages of *Hispania* issued his challenge to Hispanists to update their approach This volume which combines innovative scholarship with the metacriticism that many critics advocate in all literary study is directed both the students of literature and to scholars who wish to expand their knowledge of the many different areas of theoretical inquiry that comediantes are currently exploring
