Travellers' Tales Jon Bird, Barry Curtis, Melinda Mash, Tim Putnam, George Robertson, Lisa Tickner, 2005-07-08 Most of us

at various moments in our lives either adopt a tourist identity or are framed within another's tourist experience. *Travellers Tales* investigates the future for travelling in a world whose boundaries are shifting and dissolving. The contributors bring together popular and critical discourses of travel to explore questions of identity and politics, history and narration, collecting and representing other cultures. *Travellers tales* oscillate between the thrill of novel experiences and unexpected pleasures and the alienation and loneliness of exile in a strange land. The contributions review recent work on the discourses of tourism, travel and cultural politics, the effects of global interactions and local resistances and the ways in which records, memorials and signs have all been used to describe the experience of encountering the other. **Identical Dreams** Roger

Riffelmacher, 2009-11 Roger's second book is about four children. Two of them lose their Father and the other two lose both their Mother and Father when they all are five years old. Before losing their parents, the kids lived the good life. When the children went to live with their new foster parents, they found out what hard times were all about. After a series of events and dreams, the four children eventually meet as young adults, where subsequently one of them will be killed. **Rick Steves**

It is 1883 when Magda gives birth to Theresia. Magda's early death shortens Theresia's childhood and forces her from one employment to another. Starting in Admont to Vienna and Meran, Italy, there she finds herself alone to give birth to her daughter Anna. WWI means loss of her husband, home and savings; she makes her decisions by faith. Anna bears three children pre and during WWII. She loses two. Erika, the only surviving child, grows up in the aftermath of WWII. Tested and broken, she also finds her center in the only way she can: through her Christian faith. *Jewish Doctors and the Holocaust* Ross W. Halpin, 2019-01-14 This is the

first attempt to explain how Jewish doctors survived extreme adversity in Auschwitz where death could occur at any moment. The ordinary Jewish slave labourer survived an average of fifteen weeks. Ross Halpin discovers that Jewish doctors survived an average of twenty months, many under the same horrendous conditions as ordinary prisoners. Despite their status as privileged prisoners, Jewish doctors starved, froze, were beaten to death and executed. Many Holocaust survivors attest that luck, God, and miracles were their saviors. The author suggests that surviving Auschwitz was far more complex. Interweaving the stories of Jewish doctors before and during the Holocaust, Halpin develops a model that explains the anatomy of survival. According to his model, the genesis of survival of extreme adversity is the will to live, which must be accompanied by the necessities of life: specific personal traits and defence mechanisms. For survival, all four must co-exist.

Nazis on the Run Gerald Steinacher, 2012-08-23. The story of how Nazi war criminals fled justice after Second World War and the role played by the Red Cross, the Vatican, and the Secret Services of the great powers in helping them get away.

Surviving The Deadly Upheaval Ingeborg Maria Albert, 2020-02-08. This gripping post-World War 2 story takes place in Czechoslovakia after Germany's surrender in May 1945. One family's unyielding endurance and determination tells in uncompromising detail of the reality and aftermath of government-sanctioned brutality and expulsion of German Czechs. Revenge and violent hatred lead to the confiscation of citizenship, property, basic human rights, and ultimately ethnic cleansing. A culture of dehumanization takes root, and Hans and Mattie Novak, with their four children, travel the well-worn path of history. Follow their life throughout the ten years it takes before they grasp one last chance to leave their beloved homeland and board a US Navy transport ship carrying them and hundreds of other immigrants to the promise of freedom in America. After hardships inconceivable to those who have lived outside the fields of war, they remain unbroken and exemplify hope and selfless love. The book is a celebration of heroes at all ages, and the story is built on historical fact and true experiences.

The Art of Life and Death Andrew Irving, 2017-09-15. The Art of Life and Death explores how the world appears to people who have an acute perspective on it: those who are close to death. Based on extensive ethnographic research, Andrew Irving brings to life the lived experiences, imaginative lifeworlds, and existential concerns of persons confronting their own mortality and non-being. Encompassing twenty years of working alongside persons living with HIV/AIDS in New York, Irving documents the radical but often unspoken and unvoiced transformations in perception, knowledge, and understanding that people experience in the face of death. By bringing an experience near ethnographic focus to the streams of inner dialogue, imagination, and aesthetic expression that are central to the experience of illness and everyday life, this monograph offers a theoretical, ethnographic, and methodological contribution to the anthropology of time, finitude, and the human condition. With relevance well beyond the disciplinary boundaries of anthropology, this book ultimately highlights the challenge of capturing the inner experience of human suffering and hope that affect us all: of the trauma of the threat of death and the surprise of continued life. The art of life and death is unlike anything I have ever read in its combination of theoretical ambition and methodological innovation.

The book is the fruit of Irving's close collaboration with a remarkable group of men and women diagnosed with AIDS at a time when there was little hope of surviving the disease. With the help of their words and crucially their art, Irving illuminates the complex inner life world created by the trauma of threatened death and the surprise of continued life. Inner experience and the challenge of capturing it lie at the heart of this book. Danilyn Rutherford, author of *Laughing at Leviathan: The art of life and death* is a monumental anthropological achievement. Fusing long-term fieldwork, deeply sensitive observation, and a refined sense of the phenomenology of our deep existential fears of illness, of death, and the emotional quandaries of having survived a confrontation with mortality, Andrew Irving demonstrates how imaginative ethnography can reveal to us the deep contours of human being. The art of life and death is filled with gripping narratives, not only of pain and confusion but also of courage and resilience. It is a theoretically informed text that will long remain open to the world. Paul Stoller, author of *Yaya's story*. The art of life and death is a brilliantly engaging piece of work that invites us to rethink life itself and introduces new ways of carrying out anthropological research. Through a compelling interweaving of ethnography and theory, Irving takes us close to lives that have been lived under conditions of existential uncertainty and recovery. This book goes beyond conventional anthropology to offer a thoroughly inspiring account from which we learn not only about what it means to live near death but how art and the senses are implicated in life. It will endure as an outstanding example of how to do anthropology at its best. Sarah Pink, coauthor of *Uncertainty and possibility*. In this imaginatively conceived book, Andrew Irving asks compelling and daring questions on how to think of such categories as experience, inner life, or subjectivity in the face of imminent death. He follows up with a very careful and caring ethnography of how art and life flow into each other. Irving achieves perfect pitch in his writing. A splendid achievement. Veena Das, author of *Affliction*. Of the utmost importance, a very worthwhile introduction to any medical anthropologist because it includes detailed ethnographic descriptions, a variety of ethnographic methods, and a range of key anthropological themes, including a focus on embodied experiences, social injustice, and how individuals deal with death. The narrative style of the book makes it easy to read and relate to. This is a great feat given the complex and troubling themes discussed, which lead one to question their very perception of life itself. *Journal of the Anthropological Society of Oxford*. Of interest to anyone looking to explore people's dynamic, perceptive, and reflective outlook on the world, whether looking to the future, contemplating death, or simply being alive. No curious anthropology student or, for that matter, person would be left un-inspired or non-transformed by this text, and I implore as wide a readership as possible. *Anthropology Aging*. An exceptional achievement that gets under your skin from beginning to end. Outstanding interweaving of theoretical critique and aspiration, collaborative ethnography, and methodological experimentation and innovation. Inspiring essential reading for anyone interested in new ethnographic methods to more deeply access the complex inner dimensions of human experience. *American Ethnologist*. An excellent thought-provoking book. Brilliantly succeeding in drawing both a conceptual and empirical portrait of the patterns in which HIV, as a socio-historically traceable illness, tends to articulate the

life death dialectical relation on the discovery threshold of embodied mortality Groundbreaking Mortality This beautifully written and constructed book weaves together sophisticated social theory philosophy art work and vivid biographical narratives to offer insights into how HIV AIDS patients have learned to live a meaningful existence in the pre and post antiretroviral eras while negotiating a terminal illness Basing his book on 20 years of work with adults living with HIV AIDS in New York visual anthropologist Irving has carried out a compelling anthropological study of the complex inner world of those who struggle cope fight and ultimately come to terms with their own impending deaths The author draws on philosophical writings and social theories to contextualize his results but is at his best when allowing his subjects to speak for themselves The evocative words of subjects like artist Albert Velasco provide fascinating insights into the ways that dying persons with HIV AIDS grapple with the mundane like keeping medical appointments as well as the profound reckoning with their own mortality and purpose An engaging read that will enrich upper level and graduate collections on death and dying ethnographic methods and HIV AIDS Highly recommended Choice Diversity and Dominion Kyle Schuyler Van Houtan, Michael S.
