A Cop Doc's Guide to Public Safety Complex Trauma Syndrome Daniel Rudofossi, Dale A Lund, 2017-07-05 Cop Doc's Guide to Public Safety Complex Trauma Syndrome is written in response to the need for an advanced specialized guide for clinicians to operationally define understand and responsibly treat complex post traumatic stress and grief syndromes in the context of the unique varieties of police personality styles The book continues where Rudofossi's first book Working with Traumatized Police Officer Patients left off Theory is wed to practice and practice to effective interventions with police officer patients The how and why of a clinician's approach is made highly effective by understanding the distinct personality styles of officer patients Rudofossi's theoretical approach segues into difficult examples that highlight each officer patient's ecological field experience of loss in trauma with a focus on enhancing resilience and motivation to otherwise left disenfranchised Thus this original work expands the ecological ethological existential analysis of complex PTSD into the context of personality styles with an emphasis on resilience without ignoring the pathological aspects of loss that often envelop officer patient trauma syndromes

Resources in Education, 1992-10 Communication in Modern Social Ordering Kai Eriksson, 2011-07-21 Communication in Modern Social Ordering investigates the modern history of communication in relation to the thinking of the political community in the United States By illustrating the intertwining of the technological developments in communication methods and its community building effects the different representations of society and their political implications are examined against the development of communication systems from the telegraph to the telephone to computer networks It was the telegraph that made communication a continual process thus freeing it from the rhythmical motion of the postal service and from physical transportation in general and provided both a model and a mechanism of control Using the theories of both Foucault and Heidegger to provide a lens for new investigation the author studies not the

meanings of communication and its logic as such but rather the conditions and structures that allow meanings and logic to be formulated in the first place The book offers an original combination of historical analysis with an ontological discussion of the evolution of telecommunications in the U S as a phenomenon of modern social ordering

Reframing Police Education and Freedom in America Martin Alan Greenberg,Beth Allen Easterling,2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of

greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police
