Melvin Mencher's News Reporting and Writing Melvin Mencher, 2011 **News Reporting and Writing** Melvin Mencher, 2002 NWR Nine is the 25th Anniversary Edition of this classic text Teaching by example with vivid writing Mr Mencher teaches students the fundamentals of reporting and writing news Just the Facts David T.Z. Mindich, 1998-11-01 A superb history of journalism's most respected tenet objectivity and the challenges of achieving it in today's world Christian Science Monitor If American journalism were a religion as it has been called then its supreme deity would be objectivity The high priests of the profession worship the concept while the iconoclasts of advocacy journalism new journalism and cyberjournalism consider objectivity a golden calf Meanwhile a groundswell of tabloids and talk shows and the increasing infringement of market concerns make a renewed discussion of the validity possibility and aim of objectivity a crucial pursuit Despite its position as the orbital sun of journalistic ethics objectivity until now has had no historian David T Z Mindich reaches back to the nineteenth century to recover the lost history and meaning of this central tenet of American journalism His book draws on high profile cases showing the degree to which journalism and its evolving commitment to objectivity altered and in some cases limited the public's understanding of events and issues Mindich devotes each chapter to a particular component of this ethic detachment nonpartisanship the inverted pyramid style facticity and balance Through this combination of history and cultural criticism he provides a profound meditation on the structure promise and limits of objectivity in the age of digital media There is a growing unhappiness about the direction of news coverage Readers and viewers want objectivity back The first step toward doing that is to understand where objective journalism came from in the first place Just the Facts is a good place to begin The Washington Monthly **News Reporting and Writing** Melvin Mencher, 1993-11-16 NWR Nine is the 25th Anniversary Edition of this classic text Teaching by example with vivid writing Mr Mencher teaches students the fundamentals of reporting and writing news **The Routledge Companion to American Journalism History** Melita M. Garza, Michael Fuhlhage, Tracy Lucht, 2023-09-20 The Routledge Companion to American Journalism History revisits media history across forms formats and multiple fault lines including gender ethnicity race and citizenship status Original contributions highlight areas of journalism history in desperate need of further treatment with a special focus on diversity equity and accountability Sections cover the early origins and development of journalism in the United States pivotal moments and personalities in various strands of journalism underrepresented groups and formats in journalism history and key issues in doing journalism history Authors aim to fill in the gaps left by traditional historical narratives by examining overlooked subjects such as labor reporting and overdue theoretical perspectives such as intersectionality Collectively the voices in this book offer a more inclusive paradigm for the field Written by a range of

recognized journalism scholars both well established and emerging this collection offers a thought provoking starting point for researchers and advanced students seeking a critical understanding of American journalism history as conceived in the current era

Science Journalism Martin W Angler,2017-06-14 Science Journalism An Introduction gives wide ranging guidance on producing journalistic content about different areas of scientific research It provides a step by step guide to mastering the practical skills necessary for covering scientific stories and explaining the business behind the industry Martin W Angler an experienced science and technology journalist covers the main stages involved in getting an article written and published from choosing an idea structuring your pitch researching and interviewing to writing effectively for magazines newspapers and online publications There are chapters dedicated to investigative reporting handling scientific data and explaining scientific practice and research findings to a non specialist audience Coverage in the chapters is supported by reading lists review questions and practical exercises The book also includes extensive interviews with established science journalists scholars and scientists that provide tips on building a career in science journalism address what makes a good reporter and discuss the current issues they face professionally The book concludes by laying out the numerous available routes into science journalism such as relevant writing programs fellowships awards and successful online science magazines For students of journalism and professional journalists at all levels this book offers an invaluable overview of contemporary science journalism with an emphasis on professional journalistic practice and success in the digital age

The Audience in the News Dwight DeWerth-Pallmeyer,2013-11-05 In recent years communication scholars have taken a renewed interest in analyzing the audience and its impact on the communication process Similarly news editors and producers have often turned toward a marketing orientation which seeks to give new readers and viewers what they want or at least what they say they want Yet there has still been little written about just how the audience factors into the news which is produced Seeking to fill that niche this book argues that audience images are quite important in the construction of news but not easily detected That is because journalists are not principally interested in their audience they are interested in the news

USE THIS PARAGRAPH ONLY FOR GENERAL CATALOGS This volume argues that although journalistic images of the audience may be incomplete they do exist and powerfully help shape the work of journalists in producing journalistic texts Using a case study of news workers and news texts at two Chicago newsgathering organizations the Chicago Tribune and WGN TV this book examines notions of audience and how they have been treated by academicians presents a detailed description of the ways in which audience is embedded within the news construction process presents a very representative set of journalistic news values presents differing ideas of audience at three key levels of the news organizations reporters and news gatherers editors and producers and senior editors producers and news directors and seeks to summarize and position this study within the larger body of mass communication research
