Ngos And The Millennium Development Goals Citizen Action To Reduce Poverty:

NGOs and the Millennium Development Goals J. Brinkerhoff, S. Smith, H. Teegen, 2007-06-25 This book examines general Nongovernmental organizations NGOs roles and comparative advantages in the broad fight to end global poverty as well as roles and opportunities specific to particular Millennium Development Goals sectors **Economic Development**

Michael P. Todaro, Stephen C. Smith, 2009 This text maintains a problem and policy oriented approach to development economics It focuses on people and government in developing countries **The Millennium Development Goals:**

Challenges, Prospects and Opportunities Nana Poku, Jim Whitman, 2017-07-05 As the 15 year Millennium Development Goals approach their conclusion we can now measure their larger successes and failures in more than snapshot fashion and we can begin to consider how best to shape the international development agenda for the coming decades based on what we have learned But the performance and outlook for the MDGs can neither be reduced to the sum of its eight goals nor be divorced from international dynamics the hard interests of states and other actors and the global dynamics that impact on both For that reason this volume balances contextual analysis the role of formative and constraining forces the importance of normative considerations and illuminating case studies to deliver a study of the MDGs which has depth and nuance as well as breadth Poised between judging the recent performance and the future promise of the MDGs this book is substantial provocative and timely This book was published as a special issue of Third World Quarterly *Fundraising* Michael J.

Worth, 2024-08-06 The Second Edition of Fundraising Principles and Practice by best selling author Michael Worth offers an updated comprehensive introduction to fundraising that focuses on both theory and practice The text is designed to engage students in thinking critically about issues in fundraising and philanthropy to prepare them for careers in the nonprofit sector Worth explores key topics like donors annual giving programs major gift programs and corporate and foundation giving and campaigns A chapter on international and global fundraising and philanthropy covers key considerations obstacles and strategies for managing international NGOs and global organizations and coverage of planned giving and digital fundraising reflect important current trends **Relative Effectiveness of Alternative Microfinance-driven Poverty Alleviation**

Programs in Bangladesh Dr. Tamgid Ahmed Chowdhury, 2014-06-26 In general the effectiveness of microfinance driven poverty alleviation programs run by Government Organizations GOs and Non Government Organizations NGOs in developing countries such as Bangladesh is assessed by repayment rates the number of beneficiaries the area coverage the amount of loans disbursed the cost of operations profitability and the financial sustainability of the projects This study argues that these methods are quite restrictive since none of them reflect the perceptions of poor people concerning the effectiveness of such projects Development agencies such as GOs and NGOs have never been compared on the basis of service delivery effectiveness a process based comparison nor have they ever been compared on the basis of their relative contribution to raising the living standards of the poor an outcome based comparison Both types of comparison are crucial to poverty

reduction The main reason behind the absence of such comparisons is the unavailability of the appropriate parameters that could be used for such analysis For the process based comparison this study develops and validates a two dimensional multi item service delivery effectiveness scale through construct convergent discriminant and nomological validity The scale captures different aspects of effectiveness in the delivery of services These aspects are termed the credibility dimension and the focus towards beneficiaries dimension of service delivery in poverty alleviation programs For the output based comparison this study also develops and validates a multidimensional poverty model to compare the effectiveness of GOs and NGOs in contributing to the economic social political and cultural elements in the lives of the poor The methodology is based on 930 samples collected from 12 districts and 107 randomly chosen villages in Bangladesh during September December 2009

Popular Representations of Development David Lewis, Dennis Rodgers, Michael Woolcock, 2014-01-23 Although the academic study of development is well established as is also its policy implementation less considered are the broader more popular understandings of development that often shape agendas and priorities particularly in representative democracies Through its accessible and provocative chapters Popular Representations of Development introduces the idea that while the issue of development defined broadly as problems of poverty and social deprivation and the various agencies and processes seeking to address these is normally one that is discussed by social scientists and policy makers it also has a wider popular dimension Development is something that can be understood through studying literature films and other non conventional forms of representation It is also a public issue one that has historically been associated with musical movements such as Live Aid and increasingly features in newer media such as blogs and social networking The book connects the effort to build a more holistic understanding of development issues with an exploration of the diverse public sphere in which popular engagement with development takes place This book gives students of development studies media studies and geography as well as students in the humanities engaging with global development issues a variety of perspectives from different disciplines to open up this new field for discussion

Encyclopedia of Domestic Violence and Abuse Laura L. Finley, 2013-07-16 This comprehensive two volume work examines domestic abuse in the United States and worldwide providing research personal stories and primary documents that reveal the extent of the problem An estimated 1 300 to 1 800 Americans are murdered by intimate partners each year Far from being a problem that only impacts women domestic violence hurts society as a whole both socially as well as financially with an estimated direct and indirect cost of nearly 6 billion annually in the United States This book provides a timely and thorough reference for educators students scholars and activists seeking to better understand the global issue of domestic abuse The entries document the history of the domestic violence prevention movement provide explanations for abuse identify warning signs of hidden abuse describe types of victims and offenders and supply information on interventions and prevention programs Written by an array of experts in the field the book also integrates the personal stories of survivors and addresses abuse as a global issue by

covering topics such as acid attacks and female genital mutilation

International Disaster Response Law Andrea de Guttry, Marco Gestri, Gabriella Venturini, 2012-08-31 With a Foreword by Kristalina Georgieva European Commissioner for International Cooperation Humanitarian Aid and Crisis Response Over the last decades natural and man made disasters have been increasing in terms of frequency size number of people affected and material damage caused There is growing awareness of the importance of adequate national and international legal frameworks for disaster prevention mitigation and response The implementation of these frameworks however poses serious challenges This book analyses International Disaster Response Law as developed in recent times and identifies the main existing normative gaps The authors address the rights and duties of States in preventing and mitigating disasters in facilitating access to their territory for humanitarian relief actors as well as issues related to liability and compensation Due attention is paid to European Union law governing disaster response and to its reform in the light of the Lisbon Treaty and to the main trends in domestic legislation Human rights obligations are thoroughly examined and the potential relevance of international criminal law is assessed Additional topics such as the status of relief personnel the hindrances to the delivery of relief consignments by customs and excise administration the use of civilian and military defence assets in emergency situations the mechanisms and procedures available to offer financial support for recovery and rehabilitation risk insurance and the issue of corruption during disaster related activities are specifically addressed By drawing on the expertise of lawyers political scientists economists and humanitarian practitioners the book promotes much needed interdisciplinary dialog and sheds light on a largely uncharted field of research It is therefore essential reading for academics and practitioners in international and EU law policy makers civil protection and

humanitarian operators and for anyone interested in exploring the legal facets of the international community's response to large scale calamitous events Over the last decades natural and man made disasters have been increasing in terms of frequency size number of people affected and material damage caused There is growing awareness of the importance of adequate national and international legal frameworks for disaster prevention mitigation and response The implementation of these frameworks however poses serious challenges This book analyses International Disaster Response Law as developed in recent times and identifies the main existing normative gaps The authors address the rights and duties of States in preventing and mitigating disasters in facilitating access to their territory for humanitarian relief actors as well as issues related to liability and compensation Due attention is paid to European Union law governing disaster response and to its reform in the light of the Lisbon Treaty and to the main trends in domestic legislation Human rights obligations are thoroughly examined and the potential relevance of international criminal law is assessed Additional topics such as the status of relief personnel the hindrances to the delivery of relief consignments by customs and excise administration the use of civilian and military defence assets in emergency situations the mechanisms and procedures available to offer financial support for recovery and rehabilitation risk insurance and the issue of corruption during disaster related activities are specifically addressed By drawing on the expertise of lawyers political scientists economists and humanitarian practitioners the book promotes much needed interdisciplinary dialog and sheds light on a largely uncharted field of research It is therefore essential reading for academics and practitioners in international and EU law policy makers civil protection and humanitarian operators and for anyone interested in exploring the legal facets of the international community's response to large scale calamitous events

Digital Diasporas Jennifer M. Brinkerhoff, 2009-03-02 Jennifer M Brinkerhoff examines the importance of digital diasporas and explores their implications for security and development policy

Architecture and Space Re-imagined Richard Bower, 2016-06-10 As with so many facets of contemporary western life architecture and space are often experienced and understood as a commodity or product The premise of this book is to offer alternatives to the practices and values of such westernised space and Architecture with a capital A by exploring the participatory and grass roots practices used in alternative development models in the Global South This process re contextualises the spaces values and relationships produced by such alternative methods of development and social agency It asks whether such spatial practices provide concrete realisations of some key concepts of Western spatial theory questioning whether we might challenge the space and architectures of capitalist development by learning from the places and practices of others Exploring these themes offers a critical examination of alternative development practices methods in the Global South re contextualising them as architectural engagements with socio political space The comparison of such interdisciplinary contexts and discourses reveals the political social and economic resonances inherent between these previously unconnected spatial protagonists The interdependence of spatial issues of choice value and identity are revealed through a comparative

study of the discourses of Henri Lefebvre John Turner Doreen Massey and Nabeel Hamdi These key protagonists offer a critical framework of discourses from which further connections to socio spatial discourses and concepts are made including post marxist theory orientalism post structural pluralism development anthropology post colonial theory hybridity difference and subalterneity By looking to the spaces and practices of alternative development in the Global South this book offers a critical reflection upon the working practices of Westernised architecture and other spatial and political practices In exploring the methodologies implications and values of such participatory development practices this book ultimately seeks to articulate the positive potential and political of learning from the difference multiplicity and otherness of development practice in order to re imagine architecture and space

Nonprofit Management Michael J. Worth,2011-02-23 The Second Edition of Nonprofit Management Principles and Practice is a comprehensive textbook covering the scope and structure of the nonprofit sector leadership of nonprofits managing the nonprofit organization fundraising earned income strategies financial management nonprofit lobbying and advocacy managing international and global organizations and social entrepreneurship Written specifically for students this text integrates research theory including more than is found in the more prescriptive practitioner oriented alternatives Providing an overview suitable for students enrolled in their first course in the field the book also includes cases and discussions of advanced issues for those with experience Key Features Includes a new chapter on Social Entrepreneurship which examines the theories behind this concept as well as the successful practices of high impact nonprofits around the world Takes a balanced approach to varied perspectives and controversial issues and encompasses traditional concepts as well as new approaches and thinking Integrates social sciences research management theory and practitioner literature Includes mini cases to enhance student understanding of the issues involved in real world situations Gives students direction on where to go in the literature to learn more through chapter ending SSuggestions for Further Reading Includes SQuestions for Discussion at the end of each chapter to help students apply chapter content to actual nonprofit organizations

Egalitarianism and Global Justice Kevin K. W. Ip,2016-07-28 In this book Kevin Ip articulates and defends an egalitarian conception of global distributive justice grounded on the value of equality as a normative ideal of how human relations should be conducted Arguing that relationships of equality rather than those characterized by domination or exploitation are a requirement for a just system Ip spells out the real world implications of this approach Ip defends the ideal of equality against the diverse objections which have been brought to bear and the responsibilities we bear in our aspirations towards global justice
