Natural Law Anver M. Emon, Matthew Levering, David Novak, 2014-05-15 This book is an examination of natural law doctrine rooted in the classical writings of our respective three traditions Jewish Christian and Islamic Each of the authors provides an extensive essay reflecting on natural law doctrine in his tradition Each of the authors also provides a thoughtful response to the essays of the other two authors Readers will gain a sense for how natural law or cognate terms resonated with classical thinkers such as Maimonides Origen Augustine al Ghazali and numerous others Readers will also be instructed in how the authors think that these sources can be mined for constructive reflection on natural law today A key theme in each essay is how the particularity of the respective religious tradition is squared with the evident universality of natural law claims The authors also explore how natural law doctrine functions in particular traditions for reflection upon the religious other

Understanding the Evolving Meaning of Reason in David Novak's Natural Law Theory Jonathan L. Milevsky, 2022-01-31 David Novak is widely recognized as one of the most prominent Jewish thinkers in North America today and his most important contribution to philosophy has been his work on natural law This book is an exploration of the shift in the content and context of that theory by reference to the metaphysical meaning that Novak ultimately assigns to reason This change is then analyzed within the framework of Novak's covenantal theology and his developing view of redemption in particular Through this examination this book highlights the contribution of Novak's natural law theory to the continuing debate over the role of reason in Judaism

Natural Law Anver M. Emon, Matthew Levering, David Novak, 2014 This text critically and constructively explores the resources offered for natural law doctrine by classical thinkers from three traditions Jewish Christian and Islamic Three scholars each offer a programmatic essay on natural law doctrine in their particular religious tradition and then respond to the other two essays

The Concept of Tolerance in Judaism, Christianity and Islam Catharina Rachik, Georges Tamer, 2025-10-06 Tolerance as a universal value of modernity is not usually associated in popular consciousness with religion which is often regarded as inherently intolerant This volume addresses the hermeneutics of tolerance as it pertains to Judaism Christianity and Islam Each author offers a distinctive theological interpretation of traditional sources elucidating the potential and limitations of tolerance in the monotheistic thought Additionally the book presents examinations of the promotion of tolerance in diverse historical and cultural contexts illustrating both similarities and differences between the three religions The evidence presented in this volume demonstrates that tolerance occupies an important place in Judaism Christianity and Islam

The Achievement of David Novak Matthew Levering, Tom Angier, 2021-02-18 This book is a Festschrift offered by twelve Catholic theologians and philosophers to the great Jewish theologian David Novak Each of the twelve essays is followed by a response by David Novak and it thereby represents a significant addition to his oeuvre The book includes an introduction by Matthew Levering surveying Novak's many contributions to Jewish Christian dialogue as well as a transcribed conversation between Robert George and David Novak

that encapsulates Novak's sense of the present situation for Jews and Christians. Among the topics treated by the authors are religious engagement in a pluralist and secular culture, the question of whether Jews and Christians worship the same God, the morality of suicide, the role of divine commandments in Catholic moral theology, the question of whether classical versions of natural law doctrine are susceptible to the critiques proffered by Novak, the pedagogical impact of Dabru Emet, religious freedom, the recent debate about Pope Pius IX and Edgardo Mortara, the nature of justice, the relationship of reason and revelation, the sanctity of human life and the death penalty, and supersessionism. *Law Beyond Israel* Holger M.

Zellentin, 2022. The Hebrew Bible formulates two sets of law, one for Israelites and one for gentiles living in the Holy Land. *Law Beyond Israel* argues that the laws for non-Israelites form the historical basis of Qur'anic law, pointing to legal continuity from the Hebrew Bible to the New Testament and from late antique Christianity to nascent Islam. **The Individual in**

International Law Anne Peters, Tom Sparks, 2024. *The Individual in International Law* collects the work of esteemed scholars to examine the effects of humanisation on international law and how individual status, rights and obligations have changed the international legal system throughout history and into the present day. *God's Command* J. E. Hare, 2015. This work focuses on divine command and, in particular, the theory that what makes something obligatory is that God commands it and what makes something wrong is that God commands us not to do it. Focusing on the Abrahamic faiths, eminent scholar John E. Hare explains that two experiences have had to be integrated. The first is that God tells us to do something or not to do something. The second is that we have to work out ourselves what to do and what not to do. The difficulty has come in establishing the proper relation between them. In Christian reflection on this, two main traditions have emerged: divine command theory and natural law theory. Hare successfully defends a version of divine command theory but also shows that there is considerable overlap with some versions of natural law theory. He engages with a number of Christian theologians, particularly Karl Barth, and extends into a discussion of divine command within Judaism and Islam. The work concludes by examining recent work in evolutionary psychology and argues that thinking of our moral obligations as produced by divine command offers us some help in seeing how a moral conscience could develop in a way that is evolutionarily stable. **Law,**

Religion, and Freedom W. Cole Durham, Jr., Javier Martínez-Torrón, Donlu D. Thayer, 2021-02-22. This book examines major conceptual challenges confronting freedom of religion or belief in contemporary settings. The volume brings together chapters by leading experts from law, religious studies, and international relations who provide perspectives from both sides of the Atlantic. At a time when the polarization of culture wars is aggravating tensions between secular and religious views about accommodating the conscientious claims of individuals and groups, and when the right to freedom of religion itself is facing misunderstanding and erosion, the work provides welcome clarity and depth. Some chapters adopt a primarily conceptual and historical approach; others analyze particular difficulties or conflicts that have emerged in European and American jurisdictions, along with concrete applications and recommendations for the future. The book will be a valuable

The Qur'an's Reformation of Judaism and Christianity Holger M. Zellentin, 2019-03-20 This volume explores the relationship between the Qur'an and the Jewish and Christian traditions considering aspects of continuity and reform The chapters examine the Qur'an's retelling of biblical narratives as well as its reaction to a wide array of topics that mark Late Antique religious discourse including eschatology and ritual purity prophetology and paganism and heresiology and Christology Twelve emerging and established scholars explore the many ways in which the Qur'an updates transforms and challenges religious practice beliefs and narratives that Late Antique Jews and Christians had developed in dialogue with the Bible The volume establishes the Qur'an's often unique perspective alongside its surprising continuity with Judaism and Christianity Chapters focus on individual suras and on intra-Qur'anic parallels on the Qur'an's relationship to pre-Islamic Arabian culture on its intertextuality and its literary intricacy and on its legal and moral framework It illustrates a move away from the problematic paradigm of cultural influence and instead emphasizes the Qur'an's attempt to reform the religious landscape of its time The Qur'an's Reformation of Judaism and Christianity offers new insight into the Islamic Scripture as a whole and into recent methodological developments providing a compelling snapshot of the burgeoning field of Qur'anic studies It is a key resource for students and scholars interested in religion Islam and Middle Eastern Studies

Aquinas's Eschatological Ethics and the Virtue of Temperance Matthew Levering, 2019-11-15 Matthew Levering offers a biblical and Thomistic portrait of the cardinal virtue of temperance and its allied virtues in dialogue with an ecumenical range of theologians and scholars In Aquinas's *Eschatological Ethics and the Virtue of Temperance* Levering argues that Catholic ethics make sense only in light of the biblical worldview that Jesus has inaugurated the kingdom of God by pouring out his spirit Jesus has made it possible for us to know and obey God's law for human flourishing as individuals and communities He has reoriented our lives toward the goal of beatific communion with him in charity which affects the exercise of the moral virtues that pertain to human flourishing Without the context of the inaugurated kingdom Catholic ethics as traditionally conceived will seem like an effort to find a middle ground between legalistic rigorism and relativistic laxism which is especially the case with the virtue of temperance the focus of Levering's book After an opening chapter on the eschatological biblical character of Catholic ethics the ensuing chapters engage Aquinas's theology of temperance in the *Summa theologiae* which identifies and examines a number of virtues associated with temperance Levering demonstrates that the theology of temperance is profoundly biblical and that Aquinas's theology of temperance relies for its intelligibility upon Christ's inauguration of the kingdom of God as the

graced fulfillment of our created nature The book develops new vistas for scholars and students interested in moral theology
