Anxious Journeys Karin Baumgartner, Monika Shafi, 2019 The first book to offer a cutting edge discussion of contemporary travel writing in German *Anxious Journeys* looks both at classical tropes of travel writing and its connection to current debates The rich contemporary literature of travel has been the focus of numerous recent publications in English that seek to understand how travel narratives with their distinctive representations of identities places and cultures respond to today's globalized high speed world characterized by the dual mass movements of tourism and migration Yet a corresponding cutting edge discussion of twenty first century travel writing in German has until now been missing The fourteen essays in *Anxious Journeys* redress this situation They analyze texts by leading authors such as Felicitas Hoppe Christoph Ransmayr Julie Zeh Navid Kermani Judith Schalansky Ilija Trojanow and others as well as topics such as Turkish German travelogues and the relationship of comics to travel writing The volume examines how writers engage with classic tropes of travel writing and how they react to the current sense of crisis and belatedness It also links travel to ongoing debates about the role of the nation mass migration and the European project as well as to Germany's place in the larger world order Contributors Karin Baumgartner Heather Merle Benbow Anke S Biendarra John Blair and Muriel Cormican Nicole Coleman Carola Daffner Christina Gerhardt Nicole Grewling Gundela Hachmann Andrew Wright Hurley Christina Kraenzle Magda Tarnawaska Senel Monika Shafi Sunka Simon Karin Baumgartner is Professor of German at the University of Utah Monika Shafi is Elias Ahuja Professor of German at the University of Delaware

Thinking Like an Iceberg Olivier Remaud, 2022-06-08 When we imagine the polar regions we see a largely lifeless world covered in snow and ice where icebergs drift listlessly through frozen waters like solitary wanderers of the oceans floating aimlessly in total silence But nothing could be further from the truth This book takes us into the fascinating world of icebergs and glaciers to discover what they are really like Through a series of historical vignettes recalling some of the most tragic and most exhilarating encounters between human beings and these gigantic pieces of matter and through vivid descriptions of their cycles of birth and death Olivier Remaud shows that these entities are teeming with many forms of life and that there is a deep continuity between iceberg life and human life a complex web of reciprocal interconnections that can lead from the deadliest to the most vital And precisely because there is this continuity icebergs and glaciers tell us something important about life itself namely that it thrives in the most unexpected of places even where there seems to be no life at all At a time when we are increasingly aware that the melting of ice sheets glaciers and sea ice is one of the many disastrous consequences of global warming this beautiful meditation is a poignant reminder of the interconnectedness of all life and the fragility of the Earth's ecosystems
