Ideologies and the Corruption of Thought Joseph Gabel, 1997-01-01 Thirty five years ago Joseph Gabel published a modern masterpiece which in 1975 appeared in English as *False Consciousness An Essay on Reification* Combining his special knowledge of existential psychiatry axiology Marxism and political history Gabel proposed the utterly novel idea that victims of serious mental disturbances especially paranoia and schizophrenia reproduce those distorted thought patterns commonly associated with ideological beliefs at the collective level Such beliefs initially had been laid bare in the 1920s by Gabel's intellectual progenitors Karl Mannheim and George Lukacs Gabel's remarkable innovation was to transfer the private crisis of mental collapse into the analytic framework previously reserved for ideological critique making him an expert on what was later called the micro macro problem *Ideologies and the Corruption of Thought* includes Gabel's essays over the last 40 years characteristically treating micro and macro theoretical matters simultaneously Originally written in French and German they have been recast in idiomatic English and bibliographically updated Using a unique mode and vocabulary of analysis Gabel offers theoretical investigations of McCarthyism and Stalinism original and more recent types as well as Althusser Orwell and Jonathan Swift in his capacity as a psychiatric theorist He also explores anti Zionism anti Semitism and a fascinating case study of a paranoid who regarded himself as the pope In addition this volume includes a range of general commentaries on ideological thought utopianism and false consciousness This rich feast of social and political analysis and theory illuminates a range of contemporary concerns racism Utopian fantasy ethnocentrism anti Semitism the interplay of social structure and mental illness and ideological transformations of social life which only Gabel's unique mixture of the clinical and the political could achieve It will be studied with interest by all theorists and politically alert readers in the social sciences philosophy and related fields of study *The Other Journal: The Celebrity Issue* Christopher J.

Communication in Society Leo Löwenthal, Revisiting the Frankfurt School David Berry, 2016-04-08 What has become known as the Frankfurt School is often reduced to a small number of theorists in media communication and cultural studies Challenging this limitation Revisiting The Frankfurt School introduces a wider theoretical perspective by introducing critical assessments on a number of writers associated with the school that have been mostly marginalized from debate This book therefore expands our understanding by addressing the writings of intellectuals who were either members of the school or were closely associated with it but often neglected It thus brings together the latest research of an international team of experts to examine the work of figures such as the social psychologist Erich Fromm the philosophy of Siegfried Kracauer the writer on media and communication Leo Lowenthal introducing Hans Magnus Enzenberger to the debate whilst also shedding new light on the work of Max Horkheimer Theodor Adorno Herbert Marcuse Walter Benjamin and Jürgen Habermas A critical reassessment of the contributions of the Frankfurt School and its associates to cultural media and communication studies as well as to our modern understanding of new media technology and debate within the public sphere this book will appeal to those with interests in sociology philosophy social psychology social theory media and communication and cultural studies

Prophets of Deceit Leo Lowenthal, Norbert

Guterman,2021-04-06 How authoritarian and racist discourse functions A classic book that analyzes and defines media appeals specific to American pro fascist and anti Semite agitators of the 1940s such as the application of psychosocial manipulation for political ends The book details psychological deceptions that ideologues or authoritarians commonly used The techniques are grouped under the headings Discontent The Opponent The Movement and The Leader The authors demonstrate repetitive patterns commonly utilized such as turning unfocused social discontent towards a targeted enemy The agitator positions himself as a unifying presence he is the ideal the only leader capable of freeing his audience from the perceived enemy Yet as the authors demonstrate he is a shallow person who creates social or racial disharmony thereby reinforcing that his leadership is needed The authors believed fascist tendencies in America were at an early stage in the 1940s but warned a time might come when Americans could and would be susceptible to the psychological manipulation of a rabble rouser A book once again relevant in the Trump era as made clear by Alberto Toscano's new introduction *Latino Studies Journal* ,1998 **Subject Guide to Books in Print** ,2001 A London Bibliography of the Social Sciences ,1931 Vols 1 4 include material to June 1 1929 *False Prophets* Leo Lowenthal,2011-12-31 The studies in this volume deal with problems of authoritarianism and anti-Semitism Lowenthal's book-length contribution *Prophets of Deceit* which begins this collection is a classic of political psychology This research study is followed by an essay *Terror's Atomization of Man* Lowenthal uses this material for a theory of the psychological mechanisms operative under terrorist conditions and their significance for contemporary society **The Effects of Authoritarian and External Controls on the Development of Mental Health** Ronald Lippitt,1963 **The American Journal of Psychiatry** ,1988 Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff,R R Bowker Publishing,1996-09 Media Dependency and Political Perceptions in an Authoritarian Political System Carlos Alberto Floria,DeLisle Worrell,Edna Acosta-Belén,Jane S.
