Jargon-free, straightforward instructions equip you to converse with ease whether you're shopping for groceries, trying to find accommodation, ordering tea at a café or sightseeing around town. Each lesson combines Arabic vocabulary and grammar essentials with full-colour photographs for comprehensive learning. The guide also includes an English-Arabic dictionary, an extensive menu of popular Arabic dishes and excellent review and repeat exercises at the end of each chapter to test yourself and track your progress. Packed with cultural tips, neatly labelled images of everyday life objects, conversational advice and grammar explanations, 15 Minute Arabic is the go-to book for mastering the Arabic language.

Supercities: On, Under, and Beyond the Earth Jeff Dondero, 2020-02-08. As more and more people inhabit the Earth and live longer on it, Super Cities will explode with populations of 20, 30, even 100 millions or more. But how will these cities accommodate such masses? Who will build them and where? How can they be sustained and their inhabitants provided for? Here Jeff Dondero imagines the super cities of the future and explores the ways in which they can be sustainably built: how transportation will move masses of people without cars, how people will be fed and where waste will go, and how we will move to cities underground, under the sea, in the atmosphere, into space and on to other planets. It describes some of the smart systems for buildings and homes and some of the new ways food and materials enough for such masses will be supplied. Will super cities be the answer to our bursting population? And if they will, how can we best sustain and supply them? Dondero offers suggestions and a blueprint for the future.
