Innovations in ICT: Sustainability for Societal and Industrial Impact Vikrant Bhateja,Vazeerudeen Abdul Hameed,Siba K. Udgata,Jinshan Tang,2025-07-28 This book includes selected papers presented at the 5th International Conference on Data Engineering and Communication Technology ICDECT 2024 held at Asia Pacific University of Technology and Innovation APU Kuala Lumpur Malaysia during 28 29 September 2024 It features advanced multidisciplinary research towards the design of smart computing information systems and electronic systems It also focuses on various innovation paradigms in system knowledge intelligence and sustainability which can be applied to provide viable solutions to diverse problems related to society the environment and industry

From Smart Homes to Smart Care Sylvain Giroux,Hélène Pigot,2005 Nowadays networks microprocessors memory chips smart sensors and actuators are faster cheaper and smaller than ever They are becoming available anywhere anytime Current advances in such enabling technologies let foresee novel applications and services for improving the life of elderly and disabled people in their home and outside These conference proceedings present the latest approaches and technical solutions in the area of smart homes health telematics and enabling technologies The first chapter delves into the user perspective to ascertain real needs

and design truly useful services The following chapter explores the enabling technology Distributed sensors smart devices and networks appear as the nuts and bolts compulsory to build up smart homes Chapter three looks at the realization of smart homes Pervasive computing is emerging as one of the key approaches to organize computations within smart homes The fourth chapter addresses the issue of using smart home features to design and deliver smart care services to persons with disabilities and elderly people Finally Chapter five outlines standardization efforts and practical and industrial experiences ICOST aims at creating an active research community dedicated to explore how smart homes in particular and health telematics in general can foster independent living and an enhanced life style for elderly and disabled people On the one hand smart homes are augmented environments with embedded computers information appliances and multi modal sensors allowing people to perform tasks efficiently by offering unprecedented levels of access to information and assistance from computer On the other hand health telematics makes the most of networks and telecommunications to propose health services expertise and information at distance

2000 Revisited - Visionen der Welt von morgen im Gestern und Heute
Dobroć, Paulina, Rothenhäusler, Andie, 2020-12-08 Zukunftsvisionen entfalten eine performative Wirkung da sie politische Debatten anstoßen und gesellschaftliche Missstände Hoffnungen und Ängste artikulieren In ihnen angedachte Zeithorizonte etwa das Jahr 2000 werden mitunter zu einem Synonym für die Zukunft selbst Der vorliegende Band führt Fallstudien aus Geschichte Philosophie Soziologie und Technikfolgenabschätzung zusammen und veranschaulicht die Wirksamkeit der Zukunftsvisionen und die Bedeutung von soziotechnischen Deadlines Visions of the future have a performative effect as they trigger political debates and articulate societal grievances hopes and fears Time horizons envisaged in them such as the year 2000 often become synonymous with the future itself This volume brings together case studies from history philosophy sociology and technology assessment in order to show the effectiveness of future visions and the significance of socio technical deadlines

The New Digital Natives Alexei Dingli, Dylan Seychell, 2015-03-17 The first generation of Digital Natives DNs is now growing up However these digital natives were rather late starters since their exposure to computers started when they could master the mouse and the penetration of computers in educational institutions was still very low Today a new breed of digital natives is emerging This new breed includes those individuals who are being introduced from their first instances to the world of wireless devices One year olds manage to master the intuitive touch interfaces of their tablets whilst sitting comfortably in their baby bouncers The controller less interfaces allow these children to interact with a machine in a way which was unconceivable before Thus our research investigated the paradigm shift between the different generations of digital natives We analysed the way in which these two generations differ from each other and we explored how the world needs to change in order to harness the potential of these new digital natives

Cyberspace Safety and Security Jaideep Vaidya, Xiao Zhang, Jin Li, 2020-01-03 The two volumes LNCS 11982 and 11983 constitute the proceedings of the 11th International Symposium on Cyberspace Safety and Security CSS 2019 held in Guangzhou China in December

2019 The 61 full papers and 40 short papers presented were carefully reviewed and selected from 235 submissions The papers cover a broad range of topics in the field of cyberspace safety and security such as authentication access control availability integrity privacy confidentiality dependability and sustainability issues of cyberspace They are organized in the following topical sections network security system security information security privacy preservation machine learning and security cyberspace safety big data and security and cloud and security

The Connected Home: The Future of Domestic Life Richard Harper, 2012-01-11 The title of this new book *The Connected Home* reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the concept of a smart home into that of the connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area

Intelligent Cities Pethuru Raj, Anupama C. Raman, 2015-06-15 The emergence of highly promising and potent technologies has enabled the transition of ordinary objects into smart artifacts providing wider connectivity of digitized entities that can facilitate the building of connected cities This book provides readers with a solid foundation on the latest technologies and tools required to develop and enhance smart cities around the world The book begins by examining the rise of the cloud as the fundamental technology for establishing and sustaining smart cities and enterprises Explaining the principal technologies and platform solutions for implementing intelligent cities the book details the role of various technologies standards protocols and tools in establishing flexible homes and the buildings of the future Examines IT platforms and tools from various product vendors Considers service oriented architecture and event driven architecture for smart city applications Explains how to leverage big data analytics for smart city enhancement and improved decision making Includes case studies of intelligent cities smart homes buildings transports healthcare systems and airports The authors explore the convergence of cloud computing and enterprise architecture and present valuable information on next

generation cloud computing They also cover the various architectural types including enterprise scale integration security management and governance The book concludes by explaining the various security requirements of intelligent cities as well as the threats and vulnerabilities of the various components that form the basis of the intelligent city framework including cloud big data Internet of Things and mobile technologies

After Work Helen Hester,Nick Srnicek,2023-07-18 A timely manifesto for a feminist post work politics Does it ever feel like you have no free time You come home after work and instead of finding a space of rest and relaxation you re confronted by a pile of new tasks to complete cooking cleaning looking after the kids and so on In this ground breaking book Helen Hester and Nick Srnicek lay out how unpaid work in our homes has come to take up an ever increasing portion of our lives how the vacuum of free time has been taken up by vacuuming Examining the history of the home over the past century from running water to white goods to smart homes they show how repeated efforts to reduce the burden of this work have faced a variety of barriers challenges and reversals Charting the trajectory of our domestic spaces over the past century Hester and Srnicek consider new possibilities for the future uncovering the abandoned ideas of anti housework visionaries and sketching out a path towards real free time for all where everyone is at liberty to pursue their passions or do nothing at all It will require rethinking our living arrangements our expectations and our cities
