Made in the U.S.A. United States. Congress. House. Committee on Small Business. Subcommittee on Economic Growth, Capital Access, and Tax, 2014 *The 10-Second Commute* Terri R. Kurtzberg, Mason Ameri, 2022-10-18 Virtual work which was steadily on the rise even before the pandemic is explored in this timely book that describes the impact of technology on our work experiences ranging from the individual psychological level to the broad societal implications Widespread remote work is now possible but it comes with its share of frustrations Virtual work has changed our lives in ways big and small from trying to balance our time to what we wear and where we sit and from how we communicate to where we should look during a videoconference It s also fundamentally changed what kinds of jobs we can now do Grounded in research and including lively personal anecdotes *The 10 Second Commute* provides a thoughtful and comprehensive scan of the nature of virtual work The authors both researchers in management and technology explore the current questions of our virtual lives such as Why Zoom instead of Skype Why are emojis so useful Why is videoconferencing so exhausting How does diversity at work both help and hinder productivity Virtual work is more than just work it permeates our whole lives and it will continue to do so as hybrid work arrangements become the new normal Helping readers better understand the virtual work experience this book will engage and inform everyone who is still trying to make it work **Make It In America, Updated Edition** Andrew Liveris, 2011-12-15 The case for revolutionizing the U S economy from a leading CEO America used to define itself by the things we built We designed and produced the world s most important innovations and in doing so created a vibrant manufacturing sector that established the middle class We manufactured our way to the top and became the undisputed economic leader of the world But over the last several decades and especially in the last ten years the sector that was America s great pride has eroded costing us millions of jobs and putting our long term prosperity at risk Now as we struggle to recover from the worst recession in generations our only chance to turn things around is to revive the American manufacturing sector and to revolutionize it In *Make It in America The Case for Reinventing the Economy* Andrew Liveris Chairman and CEO of The Dow Chemical Company offers a thoughtful and passionate argument that America s future economic growth and prosperity depends on the strength of its manufacturing sector The book explains how a manufacturing sector creates economic value on a scale unmatched by any other and how central the sector is to creating jobs both inside and outside the factory Explores how other nations are building their manufacturing sectors to stay competitive in the global economy and describes how America has failed to keep up Provides an aggressive practical and comprehensive agenda that will put the U S back on track to lead the world It s time to stop accepting as inevitable the shuttering of factories and staggering job losses that have come to define manufacturing It s time to acknowledge the cost of inaction There is no better company to make the case for reviving U S manufacturing than The Dow Chemical Company one of the world s largest manufacturers and most global corporations And there s no better book to show why it needs to be done and how to do it

The Return of the State Graeme Garrard,2022-01-01 A vigorous and timely defense of the state as a force for good For decades now wealth and power have been shifting from states to markets This experiment has been a failure for all but a privileged few But this trend is beginning to reverse accelerated by the COVID 19 pandemic which has seen the state play the most direct and positive role in citizens everyday lives in living memory Graeme Garrard makes a powerful case for the state as our only realistic hope of countering the rising power of multinational corporations organized crime and international organizations that will always put their own interests first Today the state is essential to the health and welfare of everyone except the rich and powerful Yet it is being rolled back and whittled away leaving the well being of most of us at the mercy of unaccountable private powers that are increasingly free from external control As Garrard shows the state is the only realistic way of promoting the public good in our time

Bongiovanni,2024-07-01 After the brief respite that followed the fall of the USSR geopolitics and major wars are back affecting everyone everywhere In a world transitioning to multipolarity Great Powers jostle for supremacy regional powers feel emboldened to act on their own ambitions supply chains are disrupted and instability becomes the norm America has an empire that it wants to keep Russia lost an empire that it wants to recover and China doesn t have an empire and wants one with India the wildcard But there is more to it than Great Power rivalry From Ukraine to the South China Sea from the Middle East to Central Asia from the Arctic to outer space Bongiovanni lays it bare in this fascinating journey across the geopolitics of our time with in the background de globalization the battle against the dollar and the new AI driven age **Exploring Management** John R. Schermerhorn,2011-10-11 The primary goal of this edition of Exploring Management is to help build core management competencies for today s global and more complex workplace including issues related to planning organizing leading and controlling POLC with more hands on type materials such as cases exercises and application Schermerhorn uses a conversational and interactive writing style to master concepts in a bite size and fundamental approach This text presents managerial concepts and theory in a straight forward interesting style with a strong emphasis on application The discussion of theory is framed in a unique engaging and concise way The goal is to promote critical thinking and ability to make sound business decisions using managerial theory Concepts are explored and reinforced by most hands on applications exercises cases and the integration of technology The text also focuses on the most important aspects of the POLC model emphasizing skill building *NATO's Return to Europe* Rebecca R. Moore,Damon Coletta,2017-09-11 NATO s 2010 Strategic Concept officially broadened the alliance s mission beyond collective defense reflecting a peaceful Europe and changes in alliance activities NATO had become an international security facilitator a crisis manager even outside Europe and a liberal

democratic club as much as a mutual defense organization. However, Russia's re-entry into great power politics has changed NATO's strategic calculus. Russia's aggressive annexation of Crimea in 2014 and its ongoing military support for Ukrainian separatists dramatically altered the strategic environment and called into question the liberal European security order. States bordering Russia, many of which are now NATO members, are worried, and the alliance is divided over assessments of Russia's behavior. Against the backdrop of Russia's new assertiveness, an international group of scholars examines a broad range of issues in the interest of not only explaining recent alliance developments but also making recommendations about critical choices confronting the NATO allies. While a renewed emphasis on collective defense is clearly a priority, this volume's contributors caution against an overcorrection which would leave the alliance too inwardly focused, play into Russia's hand, and exacerbate regional fault lines always just below the surface at NATO. This volume places rapid fire events in a theoretical perspective and will be useful to foreign policy students, scholars, and practitioners alike.

Swift iOS 24-Hour Trainer
Abhishek Mishra, 2016-01-06
Jump into the app development world with confidence. iOS Swift 24 Hour Trainer combines book and video lessons in Apple's Swift programming language to prepare you to build iPhone and iPad apps and distribute them through the Appstore. First, this approachable text covers the fundamentals of Swift by introducing you to iOS development in this language and presenting best practices for setting up a development environment and using variables, statements, expressions, operators, functions, and closures. Next, you explore common tasks such as alert views, table views, and collection views. You then deepen your knowledge of Swift by considering network programming and local data storage. Finally, this engaging resource dives into slightly more advanced concepts such as tab bars, web views, the accelerometer, camera, photo library, Google Maps, and Core Location. Swift was designed by Apple to incorporate modern scripting features while offering simpler, cleaner syntax than Objective-C to maintain a minimal and easy-to-read style. This more expressive code offers numerous key features such as closures, unified with function pointers, tuples, and multiple value returns, generics, and functional programming patterns. Learn how to obtain a device UDID. Test your applications on an actual device so you can see your work in action. Distribute your applications outside of the App Store, allowing you to test your work with real users. Review common reasons why apps are rejected by Apple to strengthen your case when submitting your apps for distribution. iOS Swift 24 Hour Trainer is an essential guide to Apple's Swift programming language for beginning programmers.

Making in America Suzanne Berger, 2015-08-21
How America can rebuild its industrial landscape to sustain an innovative economy. America is the world leader in innovation, but many of the innovative ideas that are hatched in American start-ups, labs, and companies end up going abroad to reach commercial scale. Apple, the superstar of innovation, locates its production in China yet still reaps most of its profits in the United States. When innovation does not find the capital, skills, and expertise it needs to come to market in the United States, what does it mean for economic growth and job creation? Inspired by the MIT Made in America project of the 1980s, *Making in America* brings experts from across MIT to

focus on a critical problem for the country MIT scientists engineers social scientists and management experts visited more than 250 firms in the United States Germany and China In companies across America from big defense contractors to small machine shops and new technology start ups these experts tried to learn how we can rebuild the industrial landscape to sustain an innovative economy At each stop they asked this basic question When you have a new idea how do you get it into the market They found gaping holes and missing pieces in the industrial ecosystem Even in an Internet connected world proximity to innovation and users matters for industry Making in America describes ways to strengthen this connection including public private collaborations new government initiated manufacturing innovation institutes and industry community college projects If we can learn from these ongoing experiments in linking innovation to production American manufacturing could have a renaissance
