Qatar's Foreign Policy Marwan Kabalan, 2024-11-14 This study offers an analysis of Qatar s foreign policy since its independence from Britain in 1971 Locked between two vying powers Iran and Saudi Arabia and lacking the traditional elements of influence in the regional and international state system such as land human capital and advanced industry Qatar nevertheless wields a disproportionately

large amount of regional influence with an assertive foreign policy approach Here Marwan Kabalan highlights the strategies pursued by the ruling Qatari elite especially during the last two decades and delves into the methods Qatar has used to deal with the structural challenges to its foreign policy These strategies include financially leveraging its access to crucial resources such as natural gas and its manipulation of existing regional frictions The book also addresses Qatar's soft power influence positioning itself as an alternative cultural and intellectual hub in the Arab world enabling it to take a leading role particularly as a mediator in the region By highlighting Qatar's foreign policy strategies and outcomes Kabalan illustrates how the Qatari case challenges key assumptions of international relations theory which assumes that wealthy small powers tend to pursue passive foreign policies and that structural forces minimize the role of ruling elites in foreign policymaking

analysis provided **Reading the past, writing the future** UNESCO,2017-04-10 Aucune information saisie **European Regulation of Aerodrome Safety Management Systems in the EASA System** Henning Pfisterer,2017-12-18 The implementation of Safety Management Systems at international airports was one of the most considerable changes in the regulatory framework for the operation and licensing of aerodromes in recent years However even more than five years after its inception it appears that the high expectations ICAO has placed on what has been designed as paradigm shift in the way of doing business in the airport industry were not materializing and Safety Management Systems appear at best to only marginally impact the safety performance of airports Based on the lessons learned from the implementation of SMS in Germany an ideal organizational set up for a most effective aerodrome SMS shall be designed This proposal of an ideal organizational set up shall be validated through a model implementation at a representative airport and subsequent long term observation in live operation This model implementation serves as a basis from which recommendations for a future European regulation of Aerodrome Safety Management Systems under the EASA system shall be derived *Global Contract Law in the Middle East and North Africa* Mohamed Ismail,2024-08-01 This book comprehensively covers the interplay between cultural and legal globalization and the impact this has on contract law with a particular focus on state contracts within the MENA region The book discusses the roles assumed by Supreme Courts in Egypt and MENA countries in creating unified principles of international contract law in states contracts which are consistent with international commercial contracts principles It makes a powerful argument for further harmonization of contract law in the area and how this can be achieved The book forms a case study of how international harmonization can be achieved through a number of routes such as codification digitalization of processes and contracts private public arbitration and further use of international instruments It also considers the implications of comparative European law convention law and other legal domains particularly international standards on contract law in the MENA region The book suggests how international legal standards can be integrated within contract law and how a harmonious contract law framework can thus be achieved Through analyzing ICSID case law the book argues that unification of contract law principles in the MENA region is a considerable step towards achieving legitimate expectations of foreign investors It argues further that global contract law is underway The book will be of interest to students and scholars in the field of international contract law public law and international law in Egypt and MENA countries **India Foreign Policy and Government Guide Volume 1 Strategic Information and Developments** IBP USA, *The HCCH 2019 Judgments Convention* Matthias Weller,João Ribeiro-Bidaoui,Moritz Brinkmann,Nina Dethloff,2023-05-18 This book analyses comments and further develops on the most important instrument of the Hague Conference on Private International Law HCCH the HCCH 2019 Judgments Convention The HCCH Convention the product of decades of work will have a transformative effect on global judicial cooperation in civil matters This book explores its mechanics i e the legal cornerstones of the new Convention Part I its prospects in leading regions of the world Part II and

offers an overview and comment on its outlook Part III Drawing on contributions from world leading experts this magisterial and ambitious work will become the reference work for law makers judges lawyers and scholars in the field of private international law *Bank Insolvency Law in Developing Economies* Kayode Akintola,Folashade Adeyemo,2022-12-30 The subject of bank stability has been under a great amount of political and legislative scrutiny since the mid 2007 to late 2009 global financial crisis However these efforts have centred on developed economies Little coverage is given to strategies adopted by many developing economies While there is a global discourse on the subject of insolvency generally there is ample scope to contribute to the growing body of work on the narrow subject of bank insolvencies This book provides a unique perspective on an emerging theme in at least two respects First is the focus on selected developing economies and selected developed economies in the EMEA region alongside cross border developments with the objective of deciphering the regulatory approach to bank insolvencies The second is the analytical consideration of methods that may be implemented to preclude or resolve bank insolvencies in developing economies This book explores the nexus between developing economies and their banking institutions Developing economies are acutely dependent on their banks for the functioning of their cash based economies Recent events however suggest a weakness in the long term viability of some of their banks and a mixed bag regulatory approach to redress this weakness This book evaluates the effectiveness of regulatory frameworks in selected developing economies that are designed to prevent or resolve the insolvency of banks At a time of global economic uncertainty this book will prove to be a valuable resource to the discourse on the viability of banks businesses and economies in developing States Islamic Law and International Commercial Arbitration Maria Bhatti,2018-09-27 This book examines the intersection between contemporary International Commercial Arbitration and Shari a law in order to determine possible tensions that may arise between the two systems It develops evidentiary and procedural rules under Shari a as well as examining the consequences of stipulating qualifications of arbitrators based on gender and or religion The author extensively analyses the prohibition against interest riba and uncertainty gharar under Shari a and its impact on arbitration agreements arbitral awards and public policy The book also explores the prohibition against riba in light of international conventions such as the United Nations Convention on Contracts for the International Sale of Goods Case studies in the book include the Asian International Arbitration Centre formerly the Kuala Lumpur Regional Centre for Arbitration and the International Islamic Centre for Reconciliation and Arbitration as well as the Shari a Standards developed by the Accounting and Auditing Organization for Islamic Financial Institutions The book will be a valuable resource for academics students and practitioners working in the areas of Islamic law and the Islamic finance industry State Territory and International Law Josephat Ezenwajiaku,2020-05-31 This book proposes a re interpretation of Article 2 4 of the Charter of the United Nations to read or at least include respect for the inviolability of State territory While States purport to obey the prohibition of the Use of Force they frequently engage in activities that could undermine international peace and security In this book the author

argues that State practice *opinio juris* as well as contentious and advisory opinions of the International Court of Justice have promoted the first limb of Article 2 4 Although wars between States have decreased the maintenance of international peace and security remains a mirage as shown by the increase in intra and inter State conflicts across the world The author seeks to initiate a rethinking of the provision of Article 2 4 which the International Court of Justice has described as the cornerstone of the United Nations The author argues that the time is ripe for States to embrace an evolutive interpretation of Article 2 4 to mean respect as opposed to the traditional view of the threat or the use of force He also evaluates the discourse regarding territorial jurisdiction in cyberspace and argues that the efforts made by the international community to apply Article 2 4 to cyberspace suggest that the article is a flexible and live instrument that should be adjusted to address the circumstances that endanger international peace and security This book will engineer a serious debate regarding the scope of Article 2 4 which before now has always been limited to the threat or use of force As a result it will be of interest to academics and students of public international law as well as diplomats and policymakers

Protecting Intellectual Property in the Arabian Peninsula David Price, Alhanoof AlDebasi, 2017-09-13 This work examines the endeavours of the Arabian Peninsula States namely the Gulf Cooperation Council member States of Bahrain Kuwait Oman Qatar Saudi Arabia and the UAE as well as Jordan and Yemen as prospective GCC members in establishing national intellectual property protection regimes which both meet their international treaty obligations and are also congruent with their domestic policy objectives It uses the WTO s TRIPS Agreement of 1995 as the universal benchmark against which the region s laws are assessed The challenges faced by the States in enforcing their intellectual property laws receive particular attention *Protecting Intellectual Property in the Arabian Peninsula* considers the changing nature of the States intellectual property laws since 1995 It argues that the decade immediately following the TRIPS Agreement was marked by a period of foreign forces shaping or influencing the character of the States intellectual property legislative regimes primarily through multilateral or bilateral trade based agreements The second and current decade however see a significant shift away from foreign influences and a move towards domestic and regional imperatives and initiatives taking over The work also examines regional initiatives for the protection of traditional knowledge and cultural heritage as areas of intellectual property which fall outside the parameters of the TRIPS Agreement but which are of significant concern to the States and other developing countries and to which they are giving increasing attention in terms of providing proper protection
