of a startup's initial year in business require a keen awareness of uncertainties and a willingness to adapt in order to survive. Today's new founders greatly benefit from taking a behind-the-scenes look at successful companies such as Etsy, HotelTonight, Fiverr, and more in regards to how they overcame the challenges of their first year. *Startups in Action* is your curated source for critical insights and inspiration from those who have been there before. This book documents the month-to-month journeys of these companies in their first year, zeroing in on key decisions that helped them recover from missteps and adapt to complications to eventually grow and succeed. Were the founders full-time from the beginning? How long did it take them to build a working prototype? How many end users did they have in the first year? The answers to these questions are of interest to those who are just starting out and want to learn by example. Collected from interviews with the founders themselves, author JP Silva answers these questions and reveals how each of the startups charted their paths to success. *Startups in Action* is equal parts inspirational and practical, providing guidance through a foundation of relatability to help cope with situations and surprises experienced during a startup's first year. Startup discourse is rife with myths and oversimplification. Cut through the noise and learn the events, actions, and counteractions only attainable from the founders themselves. As more and more aspiring entrepreneurs are about to start their journeys, the value of knowledge about difficult choices and obstacles that companies face in their first year is critical. With *Startups in Action*, you will benefit from the invaluable knowledge of experience and be prepared to face the challenges of building a successful startup.

What You Will Learn: Acquire critical insights from the most successful startups easily available and collated in one book. Compare and contrast the first-year journey of your startup with that of giants such as Etsy, StubHub, Fiverr, and more. Learn how to build better startups by understanding what you should or should not do. Who This Book Is For: This book is for new and aspiring founders and those curious to learn about the journeys of successful startups.

Skating on Mars Caroline Huntton, 2023-05-30 A heartwarming debut from author Caroline Huntton about a young figure skater discovering who they are on and off the ice. Life isn't easy on twelve-year-old Mars. As if seventh grade isn't hard enough, Mars is also grappling with the recent death of their father and a realization they never got to share with him: they're nonbinary. But with their skates laced up and the ice under their feet, all of those struggles melt away. When Mars' triple toe loop draws the attention of a high school hot shot, he dares them to skate as a boy so the two can compete head to head. Unable to back down from a challenge, Mars accepts. But as competition draws near, the struggles of life off the rink start to complicate their performance in the rink, and Mars begins to second-guess if there's a place for them on the ice at all. *Skating on Mars* is a tender examination of grief and a hopeful middle-grade tale of self-discovery. This timely triumphant novel about figure skating, identity, loss, and love will move and entertain readers, and it might just inspire them to find their own ways to change the world. Laurie Morrison, author of *Up for Air* and *Coming Up Short*.
