Concurrent Urbanities Miodrag Mitrasinovic,2015 Concurrent Urbanities Miodrag Mitrasinovic,2015 **Design and the Social Imagination** Matthew DelSesto,2022-09-22 How can social theory help us all design solutions to address the social political and ecological challenges that confront us and build more sustainable communities Design professions have typically been associated with intervention and action while social science has long been associated with thought and reflection Design and social thought are too frequently considered distinct in terms of how theories can be applied in practice Design and the Social Imagination brings together the creative action oriented sensibility of design with the reflective analytical capacities of the social sciences to offer models ideas and strategies for shaping the future of the world we live in In a world of global economic inequality racism and environmental degradation designing with an understanding of our social reality is increasingly crucial to our survival Matthew DelSesto explores current practices and discourses in areas of urban design design for social innovation environmental design co design service design and more illustrating how thoughtful design can contribute in a more productive way Drawing on a range of theory and practice from radical social thinkers C Wright Mills Patrick Geddes Jane Addams and W E B Du Bois his book shows us how design and the social sciences can interact in order to intervene in the crises we face today *The Routledge Companion to Design Research* Paul A. Rodgers,Joyce Yee,2023-07-31 This new edition of The Routledge Companion to Design Research offers an updated comprehensive examination of design research celebrating a plurality of voices and range of conceptual methodological technological and theoretical approaches evident in contemporary design research This volume comprises thirty eight original and high quality design research chapters from contributors around the world with offerings from the vast array of disciplines in and around modern design praxis including areas such as industrial and product design visual communication interaction design fashion design service design engineering and architecture The Companion is divided into four distinct sections with chapters that examine the nature and process of design research the purpose of design research and how one might embark on design research They also explore how leading design researchers conduct their design research through formulating and asking questions in novel ways and the creative methods and tools they use to collect and analyse data The Companion also includes a number of case studies that illustrate how one might best communicate and disseminate design research through contributions that offer techniques for writing and publicising research The Routledge Companion to Design Research has a wide appeal to researchers and educators in design and design related disciplines such as engineering business marketing and computing and will make an invaluable contribution to state of the art design research at postgraduate doctoral and post doctoral levels and teaching across a wide range of different disciplines The Emerging Public Realm of the Greater Bay Area Miodrag Mitrašinović,Timothy Jachna,2021-07-29 Through illustrated case studies and conceptual re framings this volume showcases ongoing transformations in public space and its relationship to the public

realm more broadly in the world's most populous urban megaregion the Greater Bay Area of southeastern China projected to reach eighty million inhabitants by the year 2025 This book assembles diverse approaches to interrogating the forms of public space and the public realm that are emerging in the context of this region's rapid urban development in the last forty years bringing together authors from urbanism architecture planning sociology anthropology and politics to examine innovative ways of framing and conceptualizing public space in of the Greater Bay Area The blend of authors first hand practical experiences has created a unique cross disciplinary book that employs public space to frame issues of planning political control social inclusion participation learning education and appropriation in the production of everyday urbanism In the context of the Greater Bay Area such spaces and practices also present opportunities for reconfiguring design driven urban practice beyond traditional interventions manifested by the design of physical objects and public amenities to the design of new social protocols processes infrastructures and capabilities This is a captivating new dimension of urbanism and critical urban practice and will be of interest to academics students and practitioners interested in urbanization in China

Architecture and the Public World Kenneth Frampton, 2024-05-02 Architecture and the Public World brings together key writings by Kenneth Frampton the eminent architectural historian and critic from the 1980s to the present Articles are grouped into thematic sections representing abiding concerns of Frampton's criticism history and critical theory modes of criticism the vicissitudes of urban form and tactility tectonics and resistance The volume also includes a new interview with Frampton and an essay by Clive Dilnot exploring the relevance of Frampton's thought for design history and criticism The anthology represents Frampton's abiding concern for labor and the political dimensions of architecture including his development of the concept of critical regionalism but in featuring writings from across the range and breadth of Frampton's career enables a broader understanding of his work demonstrating the potential for architectural interpretation and analysis to function as a mode of cultural criticism

Co-Designing Infrastructures Sarah Bell, Charlotte Johnson, Kat Austen, Gemma Moore, Tse-Hui Teh, 2023-04-27 An examination of projects designed to enable community groups to create their own solutions to global crises Co designing Infrastructures tells the story of a research program designed to bring the power of engineering and technology into the hands of grassroots community groups in order to create bottom up solutions to global crises The authors examine in detail four projects in London in detail that exemplify collaboration with engineers designers and scientists to enact urban change The projects at the heart of the book are grounded in specific settings that face challenges familiar to urban communities throughout the world This place based approach to infrastructure is of international relevance as a foundation for urban resilience and sustainability The authors document the tools used to deliver this work providing guidance for others who are working to deliver local technical solutions to complex social and environmental problems around the world
