either of them imagined a political crime syndicate with ties that reach deep into city hall Every lead is a trap every ally a potential traitor And the deeper Elena digs the clearer it becomes that Marcus isn't telling her everything His connection to the syndicate runs dangerously close to home and trusting him might be her biggest mistake When the line between protector and suspect begins to blur Elena must decide how much of her heart and her life she's willing to risk in pursuit of the truth Because in a city built on secrets justice has a price and loving the wrong man could cost her everything Broken Trust is a pulse pounding romantic thriller about loyalty betrayal and the dangerous chemistry between two people forced to choose between saving each other and saving themselves **This Machine Kills Secrets** Andy Greenberg, 2012-09-13

[of Surveillance Capitalism](#) Shoshana Zuboff, 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA'S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas Zadie Smith The Guardian The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us

The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.
