

HIGHER EDUCATION *and* SOCIETY

Edited by Joseph L. DeVitis *and* Pietro A. Sasso

Nice Book Higher Education Society Joseph Devitis

Ann Wendle

Nice Book Higher Education Society Joseph Devitis:

Women and Gender in Higher Education Ann Wendle, 2021-01-14 Since the founding of the nation higher education has helped female faculty and students assert themselves in establishing equality between men and women across the country Morris 1984 During the nineteenth century women had limited access to many sectors of American society because of their inferior status to men Such differences were visible in both political and academic arenas This discrimination reflected general societal norms of the time relegating women to the roles of mothers and homemakers Women and Gender in Higher Education provides a comprehensive review of the varying concepts that address the development of women in higher education including how women understand the world around them making meaning for themselves and their environment and acknowledging the intersectionality of their identity It also breaks new ground in the conversation about the roles of women and gender in higher education Perfect for courses such as Theoretical Frameworks of Discrimination Marginality in Relation to Gender History of Women and Gender Concepts of Gendered Behavior Colonial Model v Contemporary Discrimination Absence of Identity in Privilege Model Power and Privilege Model Redefined Foundational Framework for Oppression Theory

The Future of American Higher Education Joseph L. DeVitis, 2023-07-03 This impressive anthology presents the reader with an introduction to a gallery of public intellectuals through the critical eyes of a wide array of contributing writers from various academic fields Both the latter and the public intellectuals themselves are responding to the state of American higher education Importantly most of them there are a few public intellectuals in the book who cling closer to the status quo do not separate colleges and universities from the political economic and social currents of American society They attack the realities of growing social inequality the intractable presence of institutional racism and the recurrent reliance on the free market as the arbiter of value Public intellectuals assess the impact of these social factors on the organization and practices of contemporary American higher education They force the reader to consider serious challenges to the current arrangement of higher learning and as such they ask us to assess the efficacy of their respective perspectives Do they present the reader with insight or idealism pathways or dead ends This compendium provides an abundance of ideas for higher education leaders policy makers faculty members trustees and governmental officials as well as social theorists and graduate students interested in higher education careers Richard Guarasci President Emeritus of Wagner College Just as our society is polarized higher education is no less divided as to its mission and purpose whether it should be preparing students for employment or for engagement as citizens whether it should be corporatist and profit driven or promote intellectual curiosity and independent thinking and whether it should pursue a neoliberal agenda or promote a liberal education Whose scholarship culture and epistemologies should be validated Should it be a private or a public good Preserve tenure or erode it What role should colleges and universities play in addressing economic inequality and systemic racism The answers to these questions are critical for the future of our society as our universities and colleges

are the nurseries of the values and philosophies that shape it The chapters in this book review the contributions of seventeen public intellectuals who have been at the forefront of these issues and significantly contributed to these debates Each describes the genesis of each scholar s ideas and presents and critiques his or her core insights and arguments The seventeen public intellectuals represent a spectrum of opinion from the conservative to the progressive At this pivotal moment when much of higher education is in economic crisis and public trust in it has been eroded this book offers a robust entry point for considering the options and directions ahead for anyone in a leadership position The book will also be valuable for higher education courses to stimulate debate about these critical issues and introduce readers to the seminal thinkers in the field Public Intellectuals Presented Stanley Aronowitz Michael B rub Marc Bousquet Patricia Hill Collins Lori Patton Davis William Deresiewicz Stanley Fish Marybeth Gasman Henry Giroux Sara Goldrick Rabb Amy Gutmann Russell Jacoby Randall Kennedy David Kirp David F Labaree Christopher Newfield Michael Roth *Generally Speaking* Madeline J. Smith, Kristen L. Tarantino, 2019-07-29 This extensive overview first surveys the history of general education in the United States It discusses how the recommendations of stakeholder groups have shaped general education in recent decades Subsequent chapters detail best practices and findings in the assessment of student learning as it relates to the general education curriculum across institutional types The discussion then turns to the larger impact of general education on culture and society as students navigate life beyond the undergraduate experience The final chapters will provide insight into how various institutions are innovating through the general education curriculum as well as a discussion on the keys to maintaining the relevancy of this curriculum throughout the 21st century and beyond Perfect for courses such as Assessment of Student Learning Higher Education Administration Academic Issues in Higher Education Introduction to Foundations of Higher Education

Supporting Fraternities and Sororities in the Contemporary Era Pietro A. Sasso, J. Patrick Biddix, Mónica Lee Miranda, 2019-12-30 Supporting Fraternities and Sororities in the Contemporary Era is inspired by sustained and reoccurring professional conversations and scholarship that have suggested that not just change is necessary but that there ought to be a fundamental shift towards reconceptualizing the construct of fraternities and sororities The co editors curate work from scholars and noteworthy practitioners from across higher education to provide an imperative text that reflects the complexity and expansiveness by addressing diversity programming and support approaches This text commences with the understanding that issues will continuously exist requiring a greater nuanced depth of appreciation to reduce their negative impact It also summarizes national organizations from authentic represented voices Chapters then focus on solutions to support the fraternity and sorority experience providing strategies and emerging explanations for the issues described in this text Supporting Fraternities and Sororities seeks to do exactly as the title implies to inform all stakeholders so that they can make better decisions about the future of these institutions Perfect for courses such as Fraternity and Course Leadership Dissertation Seminar Professional Development Circles Independent Study Research

Seminar Thesis Research Reflection Assignment Contemporary Issues in Higher Education Introduction to Student Affairs

Teaching, Learning, and Schooling in Film Daniel P. Liston, Ian Renga, 2014-12-05 Films about education provide many of the most popular interpretations of what teaching and learning mean in schools. An analysis of this medium reveals much about the historical, cultural, political, and philosophical dimensions of education. Timely and engaging, this book fills a gap for scholarly and informed public commentary on the portrayal of education in film, offering a wide range of conceptual and interpretive perspectives. *Teaching, Learning, and Schooling in Film* explores several key questions, including: What does it mean to be a good teacher? How do these good teachers instruct? When is and what makes teaching complex? What constitutes learning? Do educational reforms work? The book's interdisciplinary group of contributors answers these important questions in essays highlighting Hollywood, independent, and documentary films. Prospective and practicing teachers will engage with the thought-provoking educational issues raised in this book and gain insight into the complexities of teaching and learning portrayed in film.

The Best Books for Academic Libraries: Political science, law, education, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers

Learning to Flourish Daniel R. DeNicola, 2012-08-02 What is a liberal arts education? How does it differ from other forms of learning? What are we to make of the debates that surround it? What are its place, its value, and its prospects in the contemporary world? These are questions that trouble students and their parents, educators, critics, and policy makers, and philosophers of education among others. *Learning to Flourish* offers a lucid, penetrating philosophical exploration of liberal learning, a still-evolving tradition of theory and practice that has dominated and sustained intellectual life and learning in much of the globe for two millennia. This study will be of interest to anyone seeking to understand liberal arts education as well as to educators and philosophers of education. Daniel R. DeNicola weighs the views of both advocates and critics of the liberal arts and interprets liberal education as a vital tradition aimed supremely at understanding and living a flourishing life. He elaborates the tradition as expressed in five competing but complementary paradigms that transcend theories of curriculum and pedagogy and are manifested in particular social contexts. He examines the transformative power of liberal education and its relation to such values as freedom, autonomy, and democracy, reflecting on the importance of intrinsic value and moral understanding. Finally, DeNicola considers age-old obstacles and current threats to liberal education, ultimately asserting its value for and urgent need in a global, pluralistic, technologically advanced society. The result is a bold yet nuanced theory, alert to both historical and contemporary discussions, and a significant contribution to the discourse on liberal education.
