It covers his photobased works such as the Strobe Word Chain and Pathetic Fallacy series from 1975, the Violent Space and the seminal Concerning Diachronic Synchronic Time Above On Under With Mermaid from 1976 and the Blasted Allegories series from 1977-78 which drew heavily from the artist's vast collection of photo stills taken from commercial television. An introductory critical essay will provide a close reading of selected works and a historical context for understanding Baldessari's art from this period. Here John Baldessari b. 1931 continues to interrogate the possibilities of photographic appropriation further developing his unique strategies for the production of meaning and narrative within the picture frame. Included in this crucial volume is the landmark Goya series which shows the artist revisiting his characteristic photo-text pieces established early in his career. In the serial trio Overlap Intersection and Junction produced between 2000 and 2002 Baldessari riffs on the notion of pictorial space with each series building on the preceding one. Along with a full chronology an essay contributed by the eminent critic Robert Storr closely examines a selection of these works articulating their place within the evolution of the artist's career and their much broader historical climate.
