Pautz, Li-Yin Liu, 2025-08-11 This comprehensive book explores the challenges and opportunities when teaching public policy courses Reflecting on political polarisation and the contemporary environment the contributors critically engage with course design and structure and offer innovative activities assignments and tips for the classroom **Tech** Olivier Alexandre, 2025-09-23 The first holistic analysis of the space mindset and inner workings of Silicon Valley in a generation Sometimes only an outsider can show how an industry works and how that industry works upon the world In Tech sociologist Olivier Alexandre takes us on a revealing tour of Silicon Valley s prominent personalities and vibrant networks to capture the way its denizens live think relate and innovate and how they shape the very code and conduct of business itself Even seasoned observers will gain insight into the industry s singular milieu from Alexandre s piercing eye He spends as much time with Silicon Valley s major players as with those who fight daily to survive within a system engineered for disruption Embedded deep within the community Alexandre accesses rooms shut tight to the public and reports back on the motivations ambitions and radical vision guiding tech companies From the conquest of space to quantum computing engineers have recast the infinitely large and small Some scientists predict the end of death and the replacement of human beings with machines But at what cost Alexandre sees a shadow hanging over the Valley jeopardizing its future and the economy made in its image Critical yet fair Tech illuminates anew a world of perpetual revolution The Archetype Effect James Root, 2025-02-26 An in depth research backed exploration of the answers to worker motivation Based on an extensive global research program conducted in nineteen countries around the world surveying over forty eight thousand people The Archetype Effect delivers a new framework to understand and cater to worker motivators across roles industries and organizations This book shows how workers can be classified into six major archetypes based on their motivations and describes how recent disruptions such as gig work remote work and AI assisted automation are impacting worker motivators overall The archetypes discussed in this book include Givers Driven by helping

others thrive in collaborative environments Operators Value stability and teamwork prefer clear instructions and minimal risks Explorers Seek variety creativity and new experiences prefer flexibility and innovation Artisans Motivated by mastery and pride in their work prefer autonomy and focus on quality Strivers Ambitious and career oriented motivated by recognition and advancement Pioneers Visionary and entrepreneurial driven by creating and often leading new ventures The Archetype Effect is an enlightening read for anyone wanting a new way to understand what motivates them at work every day or looking for a language to talk about current role future choices and career options with their firm It is also for all leaders seeking to apply these insights across an organization to increase employee wellbeing performance and retention

Media Literacy in Action Renee Hobbs, 2024-10-14 There s never been a more important time for students to develop media literacy competencies When students ask critical questions about the media they consume they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship Media Literacy in Action addresses learners who are simultaneously active as both creators and consumers of media messages At the same time the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide To thrive in a media saturated society people need to ask critical questions about what we watch see listen to read and use This book gives students those tools Key features of the second edition Critical examination of AI technologies algorithmic personalization data privacy and surveillance and the increased global regulation of digital platforms Attention to media literacy for empowerment and protection Inquiry oriented approach to learning that cultivates intellectual curiosity and creative expression Full color presentation with figures and photos to increase student engagement Each chapter includes Media Literacy Trailblazers Profiles of key thinkers and their theories connect students with the discipline of media literacy Media Literacy DIScourse NEW Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples Learning in Action NEW Summary and vocabulary sections combine with Analyze Create Reflect and Act activities to empower students to apply ideas from each chapter Supplemental Materials available at www.mlaction.com Students can review key ideas learn about more Media Literacy Trailblazers and watch videos aligned with each chapter Instructors can access a Teacher s Guide of best practices in class activities homework and projects Also available are chapter summaries lecture slides YouTube playlists and test materials

Robin Hood Math Noah Giansiracusa, 2025-08-05 How the rich and powerful use math to exploit you and what you can do to beat them at their own game Everything we do today is recorded as data that s sold to the highest bidder Plugging our personal data into impersonal algorithms has made government agencies more efficient and tech companies more profitable But all this comes at a price It s easy to feel like an insignificant number in a world of number crunchers who care more about their bottom line than your humanity It s time to flip the equation turning math into an empowering tool for the rest of us Award winning mathematician Noah Giansiracusa

explains how the tech giants and financial institutions use formulas to get ahead and how anyone can use these same formulas in their everyday life You ll learn how to handle risk rationally make better investments take control of your social media and reclaim agency over the decisions you make each day In a society that all too often takes from the poor and gives to the rich math can be a vital democratizing force Robin Hood Math helps you to think for yourself act in your own best interests and thrive
