Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact

University Rankings Jung Cheol Shin, Robert K. Toutkoushian, Ulrich Teichler, 2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties

World University Rankings and the Future of Higher Education Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond

University Rankings William Yat Wai Lo, 2014-02-17 This book adopts a qualitative case study approach to provide the readers with a systematic delineation and interpretation of the implications of the university ranking phenomenon for Taiwan s higher education system It reviews the literature on different theories concerning the global transformation of higher education and presents basic information on higher education in Taiwan The author develops a four dimensional framework for the analysis of the ranking phenomenon in the island state First the technological ecological dimension aims to look into how the rankings have impacted Taiwan s higher education based on empirical findings from five Taiwanese public universities Next the technological geographical dimension examines how Taiwan can use rankings to promote its interests in global higher education The two conceptual dimensions focus on the relationship between the rankings and power in higher education They show how the phenomenon can be read and explained through theoretical lenses from ecological and

geographical perspectives From an ecological perspective the empirical evidence suggests that the influence of rankings varies throughout the academic hierarchy in Taiwan The theoretical analysis then illustrates the relationship between the ranking phenomenon and the power structure in academic hierarchy Geographically while the empirical analysis is based on data from Taiwan the theoretical analysis offers essential insights that help readers to understand the changing global landscape of higher education and its implications in East Asia

The Impact of Higher Education Ranking Systems on Universities Kevin Downing, Petrus Johannes Looock, Sarah Gravett, 2021-04-05 This book written by three generations of rankings academics with considerable experience from three very different regions of the globe lifts the lid on the real impact of higher education ranking systems HERS on universities and their stakeholders It critically analyses the criteria that make up the Big Three global ranking systems and using interviews with senior administrators academics and managers discusses their impact on universities from four very different continents Higher education continues to be dominated by a reputational hierarchy of institutions that sustains and is reinforced by HERS Despite all the opinions and arguments about the legitimacy of the rankings as a construct it seems experts agree that they are here to stay The question therefore seems to be less about whether or not universities should be compared and ranked but the manner in which this is undertaken Delivering a fresh perspective on global rankings this book summarizes the development of HERS and provides a critical evaluation of the effects of HERS on four different major regions South Africa the Arab region South East Asia and Australia It will appeal to any academic student university administrator or governing body interested in or affected by global higher education ranking systems

University Rankings, Diversity, and the New Landscape of Higher Education , 2019-02-18 University rankings are a relatively new phenomenon in higher education Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear rankings attempting to measure university performance beyond national borders No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world This book is written as part of the effort to better understand rankings and their effects on higher education A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector
