David Aaronovitch The Times Nigel Farage is arguably one of the most influential British politicians of the 21st century His campaign to take the UK out of the EU began as a minority and extreme point of view but in June 2016 it became the official policy of the nation after a divisive referendum In Michael Crick s brilliant biography One Party After Another we find out how he did it despite never once managing to get elected to Parliament until 2024 Farage left public school at the age of 16 to go and work in the City but in the 1990s he was drawn into politics joining UKIP Ironically it was the electoral system for the European Parliament that gave him access to a platform and he was elected an MEP in 1999 His everyman persona combined with a natural ability as a maverick and outspoken performer on TV ensured that he garnered plenty of media attention His message resonated in ways that rattled the major parties especially the Conservatives and suddenly the UK s membership of the EU was up for debate Controversy was never far away with accusations of racism against the party and various scandals But having helped secure the referendum Farage was largely sidelined by the successful official Brexit campaign When Parliament struggled to find a way to leave Farage created the Brexit Party to ensure Britain did eventually leave the EU early in 2020 Crick s compelling study takes the reader into the heart of Farage s story assessing his methods uncovering remarkable hidden details and builds to an unmissable portrait of one of the most controversial characters in modern British politics *The Economist* ,1869 **The High Seas** Olive Heffernan,2024-05-23 THE IRISH TIMES BESTSELLER Gripping New York Times Powerful reportage awash with wonderful obscurities Sunday Times A comprehensive investigation of the staggering damage we have done to the world s oceans and its life forms Observer A vital fascinating deeply researched exploration of Earth s last wilderness Shocking and starkly illuminating a must read Gaia Vince The ocean covers seventy per cent of the surface of our planet and two thirds of this lie beyond national borders Owned by all nations and no nation simultaneously these waters are home to some of the richest and most biodiverse environments on the planet But they are also home to exploitation on a scale that few of us can imagine Here industry and economic progress rule and lax enforcement and apathy are the status quo Out of sight and often out of mind a battle rages to control profit from protect or obliterate the world s largest wildest commons Heffernan sets sail on a journey to uncover the truth behind deeply exploitative fishing practices investigate the potentially devastating impact of deep sea mining and hold to task the Silicon valley interventionists whose solutions to climate change are often wildly optimistic radically irresponsible or both The result is a forceful and deeply researched manifesto calling for the protection and preservation of this final frontier the last vestiges of wilderness on Earth *The Cultivator & Country Gentleman* ,1877 **Congressional Record** United States.
