The Odyssey of Ambition Prince Penman, In a world of gatekeepers and suitors The Odyssey of Ambition Homer's Epic Retold for Entrepreneurs Dreamers and Rule Breakers by Prince Penman is your bow to slay doubt and seize your Ithaca This isn't just a book it's a battle cry for

those who grind through failure to forge success Reimagining Homer's Odyssey Penman blends stoic philosophy with contrarian fire drawing from Michael Jordan's relentless drive J K Rowling's rejection fueled ink and Warren Buffett's infinite game From an Oakland coder's ashes where a failed platform birthed a classroom of teen innovators Penman offers entrepreneur motivation and personal growth strategies to disrupt markets and defy naysayers Learn resilience techniques to bend without breaking leadership skills to build lasting legacies and self help wisdom to conquer chaos Whether you're an entrepreneur artist or activist these pages deliver motivational stories and practical vows to string your bow A 2025 Amazon trend hypothetical shows stoic philosophy surging among dreamers Join the rebels who dare grab this business inspiration guide and loose your arrow today , **Media Management and Artificial Intelligence** Alex Connock, 2022-11-18 This cutting edge textbook examines contemporary media business models in the context of Artificial Intelligence AI and digital transformation AI has dramatically impacted media production and distribution from recommendation engines to synthetic humans from video to text tools to natural language models AI is really the change agent of the media industry answered a natural language generation model when AI was asked about the subject of this book It will open incredible opportunities This book seeks to explore them The media is examined through four sections Principles maps business models and the key tools of AI Platforms covers distribution channels in Games Streamers Social Networks Broadcast and Digital Publishing Producers covers the engines of content making including Scripted Entertainment Factual Content Marketing Creators and Music Finally Pioneers covers emerging sectors of Podcasting Esports the Metaverse and other AI driven developments Then in each chapter a standard value creation model is applied mapping a single sector through development production distribution and monetisation Diverse case studies are analysed from India Nigeria South Korea South Africa France the Netherlands the US the UK Denmark and China around creative entrepreneurship revenue models profit drivers rights and emerging AI tools Questions are provided for each case whilst chapter summaries cement learning Applied and technology focused this text offers core reading for advanced undergraduate and postgraduates studying Media Management or the relationship between Entertainment Media and Technology Online resources include chapter by chapter PowerPoint slides and an Instructor's Manual with further exercises and case studies **Global Perspectives on Indigenous Film and Literature** Amar Ramesh Wayal, A. P. Anupama, 2025-09-22 This edited volume comprehensively explores narrative survival in Indigenous film and literature forging a literary and transitional approach to native writing It navigates the evolution of Indigenous voices spanning the oral tradition and literary forms from colonial times to the present It covers a range of issues related to indigenous inequalities and diversities in film and literature With chapters from global perspectives including North America Canada New Zealand and South Asia it ensures an inclusive exploration of indigenous narratives The diverse chapters address topics such as the aboriginal experience residential school legacy the invisible nation of Algonquins tribal songs decolonial futures caste survival narrative trauma and other marginalized groups such as low castes linguistic

minorities and Adivasis tribals The book focuses on innovative concepts to understand the study of a particular indigenous group in isolation from others and more than the conventional comparative study of different indigenous groups It deals with the challenges of achieving local indigenous rights and identities It is a valuable resource for social science and humanities scholars particularly for indigenous scholars development professionals and administrators interested in the issues related to social diversity and indigeneity in a global setting

Indian Economy for Civil Services by Arora IAS Nitin Arora,

Introduction Economics is often regarded as the backbone of a nation's policy making and development Its principles and applications impact every aspect of society from individual choices to global trade policies For Civil Service Exam aspirants a thorough understanding of economics is indispensable as it equips you with the knowledge to analyze and address the pressing issues facing our country and the world The Importance of Economics in Civil Services Economics forms a crucial part of the Civil Service Exam syllabus reflecting its importance in governance and administration As future civil servants you will be required to make informed decisions that can influence economic growth social welfare and overall national development Hence a solid grasp of both basic and advanced economic concepts is essential Basic Concepts We begin with the fundamentals of economics laying a strong foundation for more advanced topics Key concepts such as supply and demand market equilibrium and the role of prices in an economy are explained in a straightforward manner You will learn about different types of markets including perfect competition monopoly and oligopoly and how they function National Income and Economic Indicators Understanding how to measure an economy's performance is critical We cover essential economic indicators like Gross Domestic Product GDP Gross National Product GNP inflation and unemployment rates These indicators provide insights into the health of an economy and are vital for policy making Money and Banking The role of money in the economy the functioning of banks and the significance of financial markets are explored in detail You will learn about monetary policy the workings of the Reserve Bank of India and how financial institutions influence economic stability and growth Public Finance This section delves into government revenue and expenditure focusing on fiscal policy and its implications for the economy Topics such as taxation public debt and budget deficits are discussed to provide an understanding of how governments manage economic resources International Trade and Finance In an increasingly globalized world understanding international economics is crucial We discuss trade theories balance of payments exchange rates and the impact of globalization on national economies The roles of international organizations like the World Trade Organization WTO and the International Monetary Fund IMF are also covered Economic Development and Planning Economic development is a major goal for any government This part of the book examines the strategies and policies aimed at achieving sustainable development Issues such as poverty inequality and environmental sustainability are addressed along with the role of planning in economic development Contemporary Economic Issues The final chapters focus on current economic challenges and trends Topics like digital economy climate change and economic reforms are discussed to provide a

contemporary perspective Understanding these issues is crucial for aspiring civil servants who will be at the forefront of addressing them Conclusion This book aims to provide a comprehensive yet accessible introduction to economics tailored specifically for Civil Service Exam aspirants By bridging basic and advanced topics it prepares you to tackle the economic questions in the exam with confidence More importantly it equips you with the knowledge to contribute effectively to the economic development and welfare of our society I hope this book serves as a valuable resource in your preparation and inspires you to delve deeper into the fascinating world of economics Nitin Arora

Transnational Streaming Television Joseph Straubhaar, Swapnil Rai, Melissa Santillana, Silvia Dalben, 2025-09-29 Examining the impact of streaming on the global production and flow of television and film this book provides an innovative theoretical framework to conceptualize how asymmetric dynamics of power play out in the era of global streaming This book analyses Netflix and Amazon Prime Video two tech based digital native streamers and compares them to Disney and HBO Max Warner Bros Discovery two legacy Hollywood studios with cable TV and broadcasting operations now pursuing global streaming The book compares their different models of operation and specifically explores how these four streamers particularly Netflix are co producing and commissioning television programs and films in an increasing number of countries It also examines how this trend is creating new opportunities for independent producers and soft power for the producing nations This book further considers the direct algorithmic targeting of individuals by their genre preferences across boundaries of culture language and nation boundaries that previously protected national and regional television markets creating a new flow of data colonialism At a more local level the book also examines some of the national and regional streaming platforms emerging in some of the key players in the Global South Brazil India and Mexico This is essential reading for students researchers and academics interested in media studies global media and global television studies

A Very Human Future Rohit Talwar, Steve Wells, Alexandra Whittington, Helena Calle , 2018-10-15 *A Very Human Future* is written from the premise that the pace of penetration and scale of disruption of new technologies requires us to adopt a new all encompassing protective logic for society moving forward *Enriching Humanity in a Digitized World* means placing humanity at the center of the agenda so that we avoid dehumanizing ourselves and future generations As society enters the fourth industrial revolution a major question arises can we harness intense technological bursts of possibility to bring about a better world *A Very Human Future* illustrates how the evolution of society cities people businesses industries nations and governments are being unexpectedly entangled by exponential technological disruption This is not a book about technology but an exploration of

how we make it serve humanity's highest needs and ambitions Each chapter looks at how new ideas enabled by emerging technologies are straining the old social fabric and proposes radical future scenarios strategies and actions to safeguard humanity from harm and enhance opportunity for all This book is a manifesto for a future that is better than the past A Very Human Future rejects an outlook where human beings live a mundane existence while technologies burst with possibility Rather we use this book to endorse a proactive approach to the future where technology is designed to benefit humanity purposefully and intentionally To advocate for A Very Human Future we ask for example how do we use technology to overcome gender bias or to impart a meaningful education to new generations Can artificial intelligence tools make government more trustworthy and help us deal with the impacts of automation replacing humans What rights should people have when residing in smart cities The scale of the new technologies requires a protective logic for moving forward keeping humanity at the centre so that we avoid dehumanizing ourselves and future generations A Very Human Future is not one but many positive stories and visions of the future can be powerful beacons for social adaptation We argue that the time to control the narrative of the future and stake a claim for humanity is now A Very Human Future uses knowledge as power describing surprising ways new thinking and disruptive technology can impact society This book explains that protecting what's human is the key to retaining our dominance over future technological progress

Wireless Artificial Intelligent Computing Systems and Applications Zhipeng Cai, Daniel Takabi, Shaoyong Guo, Yifei Zou, 2024-11-13 The three volume proceedings set LNCS 14997 14999 constitutes the refereed proceedings of the 18th International Conference on Wireless Algorithms Systems and Applications WASA 2024 held in Qindao China during June 21 23 2024 The 98 full papers and 10 short papers included in these proceedings were carefully reviewed and selected from 301 submissions They focus on cutting edge ideas research findings and innovative solutions in the dynamic intersection of wireless technologies and artificial intelligence AI computing systems
