Chokepoint Capitalism Cory Doctorow, Rebecca Giblin, 2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media Corporate concentration has breached the stratosphere as have corporate profits An ever expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both In Chokepoint Capitalism scholar Rebecca Giblin and writer and activist Cory Doctorow argue we re in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to

competition that enable them to capture value that should rightfully go to others All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers From Amazon s use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook s siphoning away of ad revenues from news media and the Big Three record labels use of inordinately long contracts to up their own margins at the cost of artists chokepoints are everywhere By analyzing book publishing and news live music and music streaming screenwriting radio and more Giblin and Doctorow deftly show how powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book s second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late [Kubernetes and Cloud Native Associate \(KCNA\) Study Guide](#) Jorge Valenzuela Jiménez, Adrián González Sánchez, 2024-05-29 Learn how to prepare for and pass the KCNA Kubernetes and Cloud Native Associate certification exam This practical guide serves as both a study guide and point of entry for practitioners looking to explore and adopt cloud native technologies Adrian Gonzalez Sanchez teaches you not only the core technology fundamentals but also the community and industry that KCNA serves With the meteoric rise in cloud adoption cloud native technologies such as Kubernetes have become the de facto industry standard Other Kubernetes certifications CKAD CKA and CKS are all geared towards higher level technical proficiency The KCNA certification exam covers the cloud native environment generally as well as the fundamental Kubernetes skills and knowledge

How I lost 50,5 kgs in 5 month and 5 days. A history of 1061 days of failures and a path to success. Piotr Konopka, This book is my story It s about success the road to it there s a bit of theory But mostly it s about practice how in 158 days the title 5 months and five days I changed my life and lost 50 5 kg A hilarious picture of Pawel Jaronski is circulating the web a doctor diagnosing a patient saying You are fat Please don t be fat The patient thanks him and the consultation is over Much weight loss advice looks similar Seemingly simple advice that only looks good on paper Or in a world of superheroes endowed with superpowers This is not a book for superheroes Nor is it a book written by a superhero It is a story about how to win despite stumbles and failures How to learn lessons How to pick yourself up after successive falls You will only find advice that works in everyday life You will get practical advice tailored to the busy lifestyles of today s world Based on factual foundations and the knowledge of experts in many fields but is complemented by the true story of a man who has faced himself Or that s what superheroism is This book is a record of my story I won t describe my life but I will discuss almost four years It will be about success but also the road to it The first part concerns the period from 23 August 2019 to 18 July 2022 That is 1 061 days which can be seen as a period of failure Or to paraphrase Thomas Edison it was a

period in which I discovered 1061 ways to lose weight that didn't work. The second part was the 158 days, actually the eponymous five months and five days during which, using the experiences I had gathered, I changed my life and lost 50.5 kg. To lose weight, I had to suffer from depression and stage III obesity. Sometimes people with depression say they woke up driving a car in a head-on collision. Me, I feel like I woke up in the vicinity of a coffin with a box of pizza in my hand. The fact that I have lost and continue to lose weight is the result of the sum of my experiences, not a magical transformation. This is only a book for some; I am not a doctor, although doctors do appear in it. This is not a book to diagnose endocrine disorders or other illnesses; see a doctor about those. I will not help you all. But if at least a few people benefit from my story, I will still be happy. The fact that I have a circle of people supporting me is lucky. Some people are not so fortunate. But it's worthwhile then to seek help from professionals: psychotherapists, psychologists who can help in such a situation. But if my experiences are to help at least one person, it is worth sharing such knowledge. That is why this book was written.
