between sensory address and reflective medialization On the one hand the Lynchian oneiric presents a markedly sensory perceptual mode of experience both characters and viewers are challenged in their perceptual patterns while at the same time being immersed in the material dream scenario On the other hand the Lynchian oneiric provides a mode of both psychological and medial reflection Not only the characters but the films themselves are inclined to turn back on themselves in a dream exploring the preconditions possibilities and limitations of their own existence and ability to know the world The oneiric in Lynch's films is thus of phenomenological media theoretical and philosophical interest
