Return to the Big Fancy Freeman Hall, 2012-09-18 Bigger Fancier and more cutthroat than ever When Freeman Hall left The Big Fancy to pursue his screenwriting dreams he thought the horrors of working in a handbag department were finally over But instead of fame and fortune he found himself stuck behind a wall of script killing rewrites unable to make a living In Return to the Big Fancy Freeman shares his wildly entertaining journey back through the fiery gates of Retail Hell He thought he had seen it all in his day but with the bar set higher than ever before employees are now graciously bowing before Corporate as they climb over fellow salespeople and even friends to earn enough transactions and commissions to actually survive As he learns more of the wretchedness that has befallen the sales floor he realizes that The Big Fancy has its customers and its employees on a short leash But leave it to Freeman and the threat of disappearing commissions to rally the retail slaves and show Corporate who s really in charge

Fair Rate of Return in Property-Liability Insurance J. David Cummins, Scott E. Harrington, 2013-03-09 Property liability insurance rates for most lines of business are regulated in about one half of the states In most cases this means that rates must be filed with the state insurance commissioner and approved prior to use The remainder of the states have various forms of competitive rating laws These either require that rates be filed prior to use but need not be approved or that rates need not be filed at all State rating laws are summarized in Rand Corporation 1985 The predominant form of insurance rate regulation prior approval began in the late 1940s following the U S Supreme Court decision in United States vs South Eastern Underwriters Association 322 U S 533 1944 This was an anti trust case involving one of four regional associations of insurance companies which constituted an insurance cartel The case struck down an earlier decision Paul vs Virginia 8 Wall 168 1869 holding that the business of insurance was not interstate commerce and hence that state regulation of insurance did not violate the commerce clause of the U S Constitution Following South Eastern Underwriters the United States Congress passed the

McCarran Ferguson Act which held that continued state regulation and taxation of insurance was in the public interest The act also held that the federal antitrust laws would not apply to insurance to the extent that the business was adequately regulated by state law See V S Department of Justice 1977 **Success in a Low-Return World** Michael J.
