Collaborative #sunrise Mui Ling Lam, 2015 Collaborative Sunrise is a computational art installation that draws on themes of nature color time and social connectedness using Instagram photos from around the world to create an eternal sunrise Collaborative Sunrise consists of two components a synthesized digital animation of an Eternal Sunrise and the Collaborative Sunrise Map The first component downloads Instagram photos with the hashtag sunrise in real time and uses a machine learning algorithm to filter out advertisements and other unrelated content Another computer algorithm

extracts colors from the photos and channels them into a synthetic animation of what the current sunrise looks like The second component uses a mechanism that pins the Instagram photos used to create the synthetic sunrise onto a world map based on associated geo location information The installation itself consists of two 5 by 14 foot images of both the map and artificial sunrise projected onto the sides of the PlayCube Using the abundance and instantaneity of these pictures made possible by technology and the cultural infrastructure of social media I aim to translate this precious real life moment into a experience of perpetual digital content
