This is the first in an Ooba monograph series providing practical assistance for Off Off Broadway 008 theatres. This booklet gives basic procedures for operating an Off Off Broadway box office serving a general admission theatre with 100 seats or less. Small music dance multi media performance groups and community arts organizations will also find the information given here helpful. Topics covered include tickets physical set up reservations sales and box office closing. While the main purpose of any box office is to distribute tickets it must also serve as a control to make possible an accurate accounting system for tickets purchased and money received. In addition the box office is a potent public relations tool for any theatre it is often the only place where the audience meets a personal representative of the theatre. If your box office is well run you can quickly answer these questions:

- 1 Why is there so little cash to deposit when the reservation book indicated the house was nearly sold out last night?
- 2 How much money did we take in last night? Last week? During the last production? Last season?
- 3 What percentage of this season's ticket sales was full price? How does that compare to last season's figures?
- 4 What percentage of the audience buys tickets with Theatre Development Fund (TDF) Vouchers (see footnote p 38)? Does that have mailing list implications?
- 5 Are we fulfilling City and State regulations?
- 6 Do we have accurate records for an auditor funding source or legal authority that demonstrate the existence of adequate procedures and controls?

Lee,Chin-Chuan Lee,Mike Z. Yao,Tsan-Kuo Chang,Fen Jennifer Lin,Chris Fei Shen,2013-10-08 As China is increasingly integrated into the processes of economic political social and cultural globalization important questions arise about how Chinese people perceive and evaluate such processes At the same time international communication scholars have long been interested in how local national and transnational media communications shape people s attitudes and values Combining these two concerns this book examines a range of questions pertinent to public opinion toward globalization in urban China To what degree are the urban residents in China exposed to the influences from the outside world How many transnational social connections does a typical urban Chinese citizen have How often do they consume foreign media To what extent are they aware of the notion of globalization and what do they think about it Do they believe that globalization is beneficial to China to the city where they live and to them personally How do people s social connections and communication activities shape their views toward globalization and the outside world This book tackles these and other questions systematically by analyzing a four city comparative survey of urban Chinese residents demonstrating the complexities of public opinion in China Media consumption does relate though by no means straightforwardly to people s attitudes and beliefs and this book provides much needed information and insights about Chinese public opinion on globalization It also develops fresh conceptual and empirical insights on issues such as public opinion toward US China relations Chinese people s nationalistic sentiments and approaches to analyze attitudes toward globalization Subscribe Now! [Ticket Scalping](#) Kerry Segrave,2006-11-15 Ticket scalping is as much an American staple as apple pie Beginning as early as the mid 1800s scalpers known as sidewalk men were charging all the traffic would bear for event tickets Although these speculators were generally viewed as pariahs and public opinion was against the practice legal attempts to limit their activities were far from successful Boston enacted laws as early as 1873 while Pennsylvania followed suit in 1884 Still such measures did little good since some laws were declared unconstitutional and for the ones that were upheld the fines were negligible with jail time rarely served Over the years as moral objections to scalping dimmed the public became more tolerant as the practice became increasingly prevalent By the 1990s the capitalist mantras of free market and economic principles of supply and demand were even being used to justify the practice This volume details the ways in which scalping has changed over the years from a one man business to an agency controlled enterprise from performances by Jenny Lind to Billy Joel The book examines the general situation public opinion and legal perception of scalping for four distinct periods 1850 1899 1900 1917 1918 1949 and 1950 2005 Emphasis is placed on the ways in which public and legal perception of the practice has evolved over this period Scalping slowly gaining a more positive status has become more accepted as part of the economic practice of free markets
