The Power of Cash Jay L. Zagorsky, 2025-03-24 Why cash is worth preserving in an increasingly cashless society Over the last thirty years we have witnessed a rapid transformation in the way that people pay for goods and services Where we used to use cash for all but our largest purchases many people now prefer credit cards debit cards cryptocurrency and electronic services like Venmo PayPal or Alipay And that s not necessarily a good thing In *The Power of Cash Why Using Paper Money is Good for You and Society* Professor Jay Zagorsky former advisor to the Boston Federal Reserve delivers a startlingly insightful and eye opening discussion of the harmful and unintended consequences of the demise of paper money The author convincingly argues that cash is an essential and helpful tool that s worth preserving for the long run You ll learn why using cash makes it easier to control your spending secures your anonymity and privacy against bad actors intent on stealing your data mitigates the chaos of climate change and war and helps the poor vulnerable unbanked and disenfranchised to navigate society You ll also discover When business and governments can refuse to take your paper money How cash maintains your privacy and anonymity from tech companies hackers banks and others How cash ensures companies cannot charge you a high custom price The potential dangers of giving governments control and knowledge of your spending How cash controls additional fees and costs associated with electronic purchases Perfect for anyone with an interest in the way we pay for the things we buy each and every day *The Power of Cash* is also a must read for people interested in the implications of a truly cashless society on personal finance technology politics and social justice

Organization, International Labour Organization, 2024-04-16 Social protection a component of the World Health Organization WHO s End TB strategy has been upheld by Member States as an essential part of the response to tuberculosis in several political declarations including the 2017 Moscow Declaration to End TB and both the political declarations of both the 2018 and 2023 United Nations General Assembly UNGA high level meetings on the fight against TB Furthermore during the 2023 high level meeting member states agreed on a new target to ensure that all people with TB have access to a comprehensive package of health and social benefits by 2027 In this context the Guidance on social protection for people affected by tuberculosis jointly developed by WHO and the International Labour Organization ILO will enable all key stakeholders in the provision of TB and social protection services to plan and implement coverage of social protection programmes for people affected by TB Implementation of this guidance will require active engagement and coordination across different sectors As

such social protection is a clear of investment for the establishment of a multisectoral accountability framework to accelerate progress towards the end of TB MAF TB as part of the multisectoral response towards ending TB Sourcebook on the Foundations of Social Protection Delivery Systems Kathy Lindert,Tina George Karippacheril,Inés Rodríguez Caillava,Kenichi Nishikawa Chávez,2020-10-29 The Sourcebook on the Foundations of Social Protection Delivery Systems synthesizes real world experiences and lessons learned of social protection delivery systems from around the globe It takes a broad view of social protection covering various intended populations such as poor or low income families unemployed workers persons with disabilities and individuals facing social risks It discusses many types of interventions that governments provide to individuals families or households including categorical programs poverty targeted programs labor benefits and services disability benefits and services and social services The Sourcebook seeks to address concrete how to questions including How do countries deliver social protection benefits and services How do they do so effectively and efficiently How do they ensure dynamic inclusion especially for the most vulnerable and needy How do they promote better coordination and integration not only among social protection programs but also among programs in other parts of government How can they meet the needs of their intended populations and provide a better client experience The delivery systems framework elaborates on the key elements of that operating environment The framework is anchored in core implementation phases along the delivery chain Key actors including people and institutions interact all along that delivery chain Those interactions are facilitated by communications information systems and technology This framework can apply to the delivery of one or many programs and to the delivery of adaptive social protection The Sourcebook structures itself around eight key principles that can frame the delivery systems mind set 1 There is no single blueprint for delivery systems but there are commonalities and those common elements constitute the core of the delivery systems framework 2 Quality of implementation matters and weaknesses in any of the core elements will negatively affect the entire system reducing the impacts of the program s they support 3 Delivery systems evolve over time in a nonlinear fashion and their starting points matter 4 Efforts should be made to keep it simple and to do simple well from the start 5 The first mile people s direct interface with administrative functions is often the weakest link in the delivery chain improving it may take systemic change but will greatly improve overall efficiencies and mitigate the risk of failures on the frontlines 6 Social protection programs do not operate in a vacuum and thus their delivery systems should not be developed in silos synergies across institutions and information systems are possible and can improve program outcomes 7 Social protection delivery systems can contribute more broadly to government s ability to serve other sectors such as health insurance subsidies scholarships social energy tariffs housing benefits and legal services 8 The dual challenges of inclusion and coordination are pervasive and perennial and encourage the continuous improvement of delivery systems through a dynamic integrated and human centered approach *Fly!* Steph Wagner,2025-11-11 Whether you re in your sixties or twenties single married rebuilding after a devastating loss or simply

Poverty, food insecurity, and social protection during COVID-19 in Myanmar: Combined evidence from a household telephone survey and micro-simulations Headey, Derek D., Oo, Than Zaw, Mahrt, Kristi, Diao, Xinshen, Goudet, Sophie, Lambrecht, Isabel, 2020-11-10 This study assesses the welfare impacts of COVID 19 on households in Myanmar by combining recent high frequency telephone survey evidence for two specific rural and urban geographies with national level survey based simulations designed to assess ex ante impacts on poverty with differing amounts of targeted cash transfers The first source of evidence the COVID 19 Rural and Urban Food Security Survey C19 RUFSS consists of four rounds of monthly data collected from a sample of over 2 000 households all with young children or pregnant mothers divided evenly between urban and peri urban Yangon and the rural Dry Zone This survey sheds light on household incomes prior to COVID 19 January 2020 incomes and food security status soon after the first COVID 19 wave June 2020 the gradual economic recovery thereafter July and August 2020 and the start of

the second COVID 19 wave in September and October 2020 This survey gives timely and high quality evidence on the recent welfare impacts of COVID 19 for two important geographies and for households that are nutritionally highly vulnerable to shocks due to the presence of very young children or pregnant mothers However the relatively narrow geographic and demographic focus of this telephone survey and the need for forecasting the poverty impacts of COVID 19 into 2021 prompt us to explore simulationbased evidence derived by applying parameter shocks to household models developed from nationally representative household survey data collected prior to COVID 19 the 2015 Myanmar Poverty and Living Conditions Survey MPLCS By realistically simulating the kinds of disruptions imposed on Myanmar s economy by both international forces e g lower agricultural exports and workers remittances and domestic COVID 19 prevention measures e g stay at home orders and temporary business closures we not only can predict the impacts of COVID 19 on household poverty at the rural urban and national levels but also can assess the further benefits to household welfare of social protection in the form of monthly household cash transfers of different magnitudes Combined these two sources of evidence yield insights on both the on the ground impacts of COVID 19 in recent months and the potential poverty reduction impacts of social protection measures in the coming year We conclude the study with a discussion of the policy implications of these findings 2017 CFR Annual
