United States. Department of Education. Office of Student Financial Assistance, 1986 **Recognizing and Serving
Low-Income Students in Higher Education** Adrianna Kezar, 2010-09-13 Written for administrators faculty and staff in
Higher Education who are working with low income and first generation college students Recognizing and Serving Low
Income Students in Higher Education uncovers organizational biases that prevent post secondary institutions from
adequately serving these students This volume offers practical guidance for adopting new or revised policies and practices
that have the potential to help these students thrive This contributed volume is based on empirical studies that specifically
examine the policies and practices of postsecondary institutions in the United States England and Canada The contributing
authors argue that discussions of diversity will be enriched by a better understanding of how institutional policies and
practices affect low income students Unlike most studies on this topic this volume focuses on institutional rather than federal
state and public policy Institutional policies and practices have been largely ignored and this volume lifts the veil on
processes that have remained hidden Encyclopedia of Distributed Learning Anna DiStefano, Kjell Erik Rudestam, Robert
Silverman, 2003-11-06 This volume will appeal to a wide array of readers from novices to those already working in the field
Recommended for all collections CHOICE Reference literature has been hard put to keep pace with its distance learning

Paying the Price Sara Goldrick-Rab, 2016-09-01 A bracing and well argued study of America's college debt crisis necessary reading for anyone concerned about the fate of American higher education Kirkus College is far too expensive for many people today and the confusing mix of federal state institutional and private financial aid leaves countless students without the resources they need to pay for it In *Paying the Price* education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls Goldrick-Rab examines a study of 3 000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008 Half the students in the study left college without a degree while less than 20 percent finished within five years The cause of their problems time and again was lack of money Unable to afford tuition books and living expenses they worked too many hours at outside jobs dropped classes took time off to save money and even went without adequate food or housing In many heartbreaking cases they simply left school not with a degree but with crippling debt Goldrick-Rab combines that data with devastating stories of six individual students whose struggles make clear the human and financial costs of our convoluted financial aid policies In the final section of the book Goldrick-Rab offers a range of possible solutions from technical improvements to the financial aid application process to a bold public sector focused first degree free program Honestly one of the most exciting books I've read because Goldrick-Rab has solutions It's a manual that I'd recommend to anyone out there if you're a parent if you're a teacher if you're a student Trevor Noah The Daily Show
