The Digital Markets Act Konstantina Bania, Damien Geradin, 2024-12-12 This book provides an in depth exploration of the Digital Markets Act DMA With an ensemble of contributors who have been involved in major antitrust cases that shaped the legislative text the book explains the rationale for the DMA introduces the reader to the digital services falling within its

scope sets out the process for gatekeeper designation and provides insights into the interpretation issues and enforcement challenges that arise from the obligations it establishes. Analysing the DMA in the broader legal and market context, the chapters examine tensions between the DMA and other EU and national rules governing the conduct of online platforms, compare the DMA to similar initiatives undertaken in other jurisdictions and bring perspectives from other disciplines such as data protection regulation. A companion website reports on important developments in relation to the DMA such as the decisions designating tech giants as gatekeepers and subsequent litigation arising therefrom and provides links to analysis discussing the developments. An authoritative treatment of the DMA is paired with an easy to follow writing style to make this comprehensive compendium essential reading for practitioners, judges, regulators and researchers working on matters relating to the digital economy.

The Case of the iPad Cathy Burnett, Guy Merchant, Alyson Simpson, Maureen Walsh, 2017-07-06 This book brings together an international group of literacy studies scholars who have investigated mobile literacies in a variety of educational settings. Approaching mobility from diverse theoretical perspectives, the book makes a significant contribution to how mobile literacies and tablets in particular are being conceptualised in literacy research. The book focuses on tablets and particularly the iPad as a prime example of mobile literacies, setting this within the broader context of literacy and mobility. The book provides inspiration and direction for future research in mobile literacies based upon 16 chapters that investigate the relationship between tablets and literacy in diverse ways. Together they address the complex and multiple forces associated with the distribution of the technologies themselves and the texts they mediate and consider how apps, adults and children work together as iPads enter the mesh of practices and material arrangements that constitute the institutional setting.
